I live in the Pleasant Ridge neighborhood of Cincinnati, zip code 45212. I am objecting to the proposed Pipeline routes for this project. This huge, high pressure pipeline would be a dangerous threat to any suburban or urban neighborhood. These proposed routes run past many densely populated areas and places of public gatherings. The blast zone is 2000 feet on either side of the pipe. Running this pipeline past synagogues, churches, subdivisions, apartment buildings, recreation spaces and facilities, businesses, private residences, etc. is too dangerous to even consider. It also damages property values of every property in the 2/3 mile wide blast zone.

Please oppose this project at every opportunity.
