To Whom It May Concern,

Duke is interested in placing a massive high pressure natural gas pipeline directly through densely populated neighborhoods, alongside schools, hospitals, day care centers, churches, etc in Cincinnati. This scope is unprecedented and a massive safety hazard. An explosion could kill and/or injure thousands of residents within the pipeline's path.

This act demonstrates a disregard for the well-being of the Citizens of Cincinnati. This pipeline belongs in an lesser-populated area. Please enact stronger safety protections around the placement and inspection of these pipelines. Please consider saying NO to the Central Corridor Gas Pipeline Extension Project!

Thank you for your consideration,

Marina Annunziata
