I attended the meeting organized by Nopecincy.org and understood that Duke Energy will build a huge pressure gas pipeline close to residential area. Duke Energy likes to take the easy route to save money for themselves without concerning citizen's lives in Cincy. In the past there are huge explosions happened to gas pipeline with lower pressure, this huge 720PSI gas pipeline is give us big concern that we can NOT sleep well during the night worrying about our life safety.... I am sure we are not alone, many people cannot sleep during the night because this proposed project by Duke.... Could you please explain how you can help all the people who cannot sleep during night due to this project? Your help is greatly appreciated.

Thank so much
Sincerely
Larry
