16-0253-GA-BTX

Hello,

I would like to reach out to the sitting members of the Ohio Power Sitting Board. I am new a property owner in Kenwood, in the neighborhood right across the street from the Kenwood Mall. I moved into this area due to close proximity to my work and the lovely community. I was disturbed to find out that this pipeline was slated to come right though the community I joined and even my neighborhood. My main concern is that this dangerous utility will be run right though a highly populated area full of both residential and business properties. This will effect both property values and over all community safety. There is no justification for this line location as the line will not benefit Ohio and will only serve to increase revenue for Duke. I urge this board to reconsider the location of this pipeline, there are much less dense locations east of the Sycamore Community. I hope this reaches the right people and is taken into consideration. Thank you for your valuable time.

Adam Troescher
