Dear Asim Z. Haque, Chairman, Public Utilities Commison of Ohio

June 20, 2016

I am writing due to the proposed massive, high pressure natural gas pipeline that Duke Energy wants to run directly through densely-populated neighborhoods, schools, hospitals, day-care centers, places of worship and centers of commerce in the Cincinnati and surrounding areas. This is an unprecedented project and a massive safety hazard. Large pipelines of this nature have exploded in the past causing massive devastation. This proposed pipeline could kill or injure 1000's of people, yet Duke Energy is undeterred and will be effectively able to regulate itself. Please step up to protect your citizenry and the people who voted for you. Demand that high-pressure transmission lines remain clear of densely-populated areas. Enact stronger safety precautions around the inspection and placement of these pipelines. **Say NO to the Central Corridor Gas Pipeline Extension Project** (OPSB Case number 16 – 0253-GABTX).
