COMMENTS: To the Ohio Power Sitting Board,

PUCO

I am strongly urging you to divert Duke Energy's plan to install a natural gas pipeline through our densely populated community to routes of less populated areas. The project causes safety concerns for our families and will undoubtedly damage properties through a strenuous and costly construction process. My neighbors and my own backyard will likely suffer from the project while not receiving any benefits of the project.

Please consider the residents of these areas when making your final decision.

Thanks,
Sean Brink
