Please accept this letter as a statement of opposition to placing the natural gas pipeline through the City of Blue Ash and underneath Summit Park. The safety issues surrounding these pipelines are far from resolved and pose a significant threat to the health and welfare of the residents of our community. It is inconceivable that the pipeline cannot be routed through unpopulated areas to get to their ultimate destination (which is certainly not Blue Ash). Blue Ash could be well served with smaller, secondary gaslines if more capacity is needed. I urge the siting commission and whoever else is involved in the statewide review to significantly alter Duke's plans.

Sincerely,

Barry P. Gibberman D.M.D
