Gentlemen:

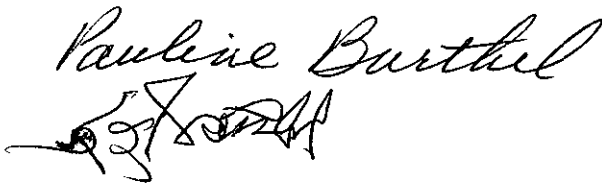

OPSB CASE NUMBER 16-0253-GA-BTX

I would like to go on record as opposing the Duke Energy Pipeline extension.

All routes proposed go thru residential areas and pose a terrible risk to all

In Sycamore Township we are a locked in area of 83 homes with only one entrance and exit. During construction it would be detrimental to the residents should there be the need for emergency equipment and needless to say, what would happen should there be a catastrophic event.

I find it difficult to even understand their reasoning for routing this pipe in an area around a hospital, doctor's offices, school and church. It is very irresponsible to route such a pipe where it can jeopardize the well-being of the sick, children and surrounding neighbors and thus affect the QUALITY OF LIFE OF ALL THE AREA.
