<110> Has your company received its ETC certification from the FCC?	(yes / no) <input type="radio"/> <input checked="" type="radio"/>
<111> If your answer to Line <110> is yes, do you have an existing § 54.202(a) "5 year plan" filed with the FCC?	(yes / no) <input type="radio"/> <input type="radio"/>

If your answer to Line <111> is yes, please file a progress report, on line <112> delineating the status of your company's existing § 54.202(a) "5 year plan" on file with the FCC, as it relates to your provision of voice telephony service.

- <112> Attach Five-Year Service Quality Improvement Plan or, in subsequent years, your annual progress report filed pursuant to 47 C.F.R. § 54.313(a)(1). If your company is a CETC which only receives frozen support, your progress report is only required to address voice telephony service.

300614oh112.pdf

Name of Attached Document

Please select the appropriate responses below (Yes, No, Not Applicable) to confirm that the attached document(s), on line 112, contains a progress report on its five-year service quality improvement plan pursuant to § 54.202(a). The information shall be submitted at the wire center level or census block as appropriate.

- <113> Maps detailing progress towards meeting plan targets
- <114> Report how much universal service (USF) support was received
- <115> How much (USF) was used to improve service quality and how support was used to improve service quality
- <116> How much (USF) was used to improve service coverage and how support was used to improve service coverage
- <117> How much (USF) was used to improve service capacity and how support was used to improve service capacity
- <118> Provide an explanation of network improvement targets not met in the prior calendar year.

4005 Rural Broadband Experiment

Authorized Rural Broadband Experiment (RBE) recipients must address the certification for public interest obligations, provide a list of newly served community anchor institutions, and provide a list of locations where broadband has been deployed.

Public Interest Obligations – FCC 14-98 (paragraphs 26-29, 78)

Please address Line 4001 regarding compliance with the Commission's public interest obligations. All RBE participants must provide a response to Line 4001.

4001. Recipient certifies that it is offering broadband to the identified locations meeting the requisite public interest obligations consistent with the category for which they were selected, including broadband speed, latency, usage capacity, and rates that are reasonably comparable to rates for comparable offerings in urban areas?

Community Anchor Institutions – FCC 14-98 (paragraph 79)

4003a. RBE participants must provide the number, names, and addresses of community anchor institutions to which they newly deployed broadband service in the preceding calendar year. On this line, please respond (yes – attach new community anchors, no – no new anchors) to indicate whether this list will be provided.

If yes to 4003A, please provide a response for 4003B.

4003b. Provide the number, names and addresses of community anchor institutions to which the recipient newly began providing access to broadband service in the preceding calendar year.

Name of Attached Document Listing Required Information _____

Broadband Deployment Locations – FCC 14-98 (paragraph 80)

4004a. Attach a list of geocoded locations to which broadband has been deployed as of the June 1st immediately preceding the July 1st filing deadline for the FCC Form 481.

Name of Attached Document Listing Required Information _____

4004b. Attach evidence demonstrating that the recipient is meeting the relevant public service obligations for the identified locations. Materials must at least detail the pricing, offered broadband speed and data usage allowances available in the relevant geographic area.

Annual Progress Report Redacted in its Entirety

Line 510, Service Quality Standards and Consumer Protection Rules Compliance

Documentation of the company's compliance with certification requirements pursuant to 47 CFR §54.313(a)(5).

In addition to the rules and regulations contained in Title 47, Code of Federal Regulations, Fort Jennings Telephone Company is subject to the following Service Quality Standards and Consumer Protection Rules of the Public Utilities Commission of Ohio:

Ohio Administrative Code

- 4901:1-6-09 Eligible Telecommunication Carrier certification (high cost and Lifeline).
- 4901:1-6-12 Service Requirements for BLES (Basic Local Exchange Service), including installation and repair intervals, deposits, payments and disconnection.
- 4901:1-6-13 Warm line service.
- 4901:1-6-14 BLES pricing parameters, including late payment charges and reconnection fees.
- 4901:1-6-15 Directory Information.
- 4901:1-6-16 Unfair or deceptive acts and practices.
- 4901:1-6-17 Truth in billing requirements.
- 4901:1-6-18 Slamming and preferred carrier freezes.
- 4901:1-6-19 Lifeline requirements.
- 4901:1-6-20 Discounts for persons with communications disabilities.
- 4901:1-6-27 Provider of last resort (POLR).
- 4901:1-6-30 Company records and complaint procedures.
- 4901:1-6-31 Emergency and outage operations.
- 4901:1-7-03 Toll presubscription.
- 4901:1-7-24 Local number portability (LNP).
- 4901:1-7-26 Competition safeguards (CPNI).

Ohio Revised Code

- 4927.06 Unfair or deceptive trade practices.
- 4927.08 Basic local exchange service standards.
- 4927.09 Access to 9-1-1 service.
- 4927.11 Access to basic local exchange service.
- 4927.12 Alteration of rates for basic local exchange service.
- 4927.13 Lifeline service for eligible residential customers.
- 4927.14 Adoption of rules for rates for persons with disabilities.
- 4927.15 Rates, terms and conditions for 9-1-1 and other services.
- 4927.17 Notice of rates, terms or conditions of service; contact information to be provided on bills and notices.
- 4927.21 Complaints against Telephone Company.

The company has established policies and procedures designed to protect consumers, including publishing the following in the telephone directory provided to each customer: customer rights, formal complaint procedures, and policies related to privacy, slamming and cramming.

The company observes strict compliance to all CPNI rules, including training for new employees, refresher training for current employees, maintaining written practices for handling CPNI and submitting annual certifications to regulatory agencies. The CPNI manual is available for inspection at the company business office. The company uses a contracted service order administrator to process LNP requests within the time constraints contained in the rules. Customer billing is performed by a billing vendor that maintains software that complies with all truth in billing requirements, including the information that is required to be displayed on the customer bill. The company maintains a CALEA manual and utilizes a third party vendor to make sure that all CALEA requests are processed in accordance with applicable laws and regulations. The CALEA manual and procedures are filed with the appropriate agencies and are also maintained at the company business office.

The company's Basic Local Exchange Service Tariff, PUCO No.5, contains BLES pricing, 9-1-1, Lifeline and IntraLATA presubscription information, terms and conditions. The tariff is available at the company business office and in the tariff section of the PUCO website <http://www.puco.ohio.gov>.

While all of the regulations apply to the regulated, voice services provided by the Company, many also apply to the provision of broadband services, such as CALEA, CPNI, truth in billing, unfair or deceptive acts or practices, emergency operations and network management. The company adheres to those standards that apply to broadband service in the same manner as it does for voice service. Some examples of regulations that do not apply to broadband are Warm Line Service, BLES requirements, directory information and toll presubscription.

Other sections of FCC Form 481 contain additional information regarding the following:
Lifeline terms and conditions - Line 1210
Emergency operations - Line 610

Line 610, Functionality in Emergency Situations

Documentation of the company's processes implemented to assure compliance with certification requirements pursuant to 47 CFR §54.313(a)(6) and §54.202(a)(2).

The Fort Jennings Telephone Company has an employee call-out procedure in place to mobilize its entire workforce in the event of an emergency situation. The notification process utilizes landline, cellular and Internet technologies. In the event of total failure of all communications technologies, company practices include having employees report to the central office to obtain further instructions.

The central office and core network functionality is supported by 12 hours of battery reserve and a 27 kw generator set capable of running continuously for 30 hours before needing to be refueled. Network nodes containing active electronic equipment are equipped with battery backup. The company maintains 4 portable generator sets that can be deployed to network nodes in the event a power outage exceeds the battery reserve capacity.

The facility network is designed as a diverse-routed fiber optic ring, capable of instantaneously switching traffic around damaged facilities. Employees are trained in fiber optic splicing and the necessary equipment is maintained on-site for rapid deployment and restoration. Separate facilities support the PSTN and broadband network connections to other carriers. In the event that all PSTN facilities are damaged, the switch is capable of both TDM and IP formats, providing the ability to reroute PSTN traffic via dedicated IP facilities to other carriers.

The network is capable of managing traffic spikes caused by emergency situations. This is accomplished by maintaining properly sized trunk groups to the PSTN and by providing substantial broadband backbone bandwidth capable of carrying overflow voice traffic in addition to data traffic.

The capabilities and procedures listed above apply to the Company's voice and broadband networks since many functions are intertwined. For example, the fixed, central office generator set provides power to both the voice switching and circuit equipment as well as the DSLAMs, routers, optical terminals and other broadband equipment. The same is true for the portable generator sets provide emergency power to the voice and broadband equipment located in the field network nodes. Personnel call-out and response is identical for situations that interrupt the voice as well as broadband network.

June 20th 2016,

Line 1010, Voice Services Rate Comparability

The Fort Jennings Telephone Company certifies that its residential voice service rates are less than two standard deviations above the national average urban rate for voice service, as specified in the most recent public notice issued by the Wireline Competition Bureau (DA 15-470). The current rate for voice service is \$7.05 per month inside the corporation limits and \$9.05 outside the corporation limits, which is below the national average urban rate floor of \$21.22. As such, it is well below two standard deviations above the national average urban rate (the reasonable comparability benchmark rate of \$47.48).

Fort Jennings, OH 45844
419-286-2181

June 20th 2016,

Line 1030,

Fort Jennings Telephone Company (SAC 300614) certifies that its residential broadband service rates are less than the national urban benchmark rate for broadband service, as specified in the public notice issued by the Wireline Competition Bureau (DA 15-470). The current broadband service rate for 12 Mbps download speed, 1 Mbps upload speed, and unlimited usage is \$ 49.95 when bundled with another qualifying service. This is below the national urban benchmark of \$77.80 for the closest comparable speed of 10 Mbps/1 Mbps with unlimited usage.

Michael A Metzger

A handwritten signature in black ink, appearing to read "Michael A Metzger", written over a horizontal line.

General Manager
Fort Jennings Telephone Company

Line 1210, Terms and Conditions for Lifeline Customers

Fort Jennings Telephone Company, Inc. (SAC 300614) has established terms and conditions for Lifeline customers that incorporate the federal and state requirements as documented in its Basic Local Exchange Service Tariff PUCO No. 5 Section 5, First Revised Sheet No. 1.

The Company shall provide Lifeline service as defined in 47 C.F.R. § 54.401 (a) on a non-discriminatory basis to all qualifying low-income customers. The Company's Lifeline service offering shall comply with all applicable federal and state laws, including, but not limited to, 47 C.F.R. Part 54, Subpart E; the FCC's Lifeline reform order (Report and Order released February 6, 2012, WC Docket No. 11-42, et. al) and any subsequent clarifying orders; Section 4927.13, Revised Code; Rule 4901:1-6-19, Ohio Administrative Code; and, the Commission's nontraditional Lifeline service order (Finding and Order adopted May 23, 2012, Case No. 10-2377-TP-COI) and any subsequent entries and/or orders.

The Lifeline discount applies to Basic Local Exchange Service (BLES) as defined by Ohio Revised Code 4927.01(A)(1). For residence customers, BLES consists of local dial tone service, flat-rate telephone exchange service, touch-tone dialing service, access to and usage of 9-1-1 services, provision of a telephone directory at no charge, listing in that directory, per call caller identification blocking services, access to telecommunications relay service and access to toll presubscription, interexchange or toll providers or both, and networks of other telephone companies. The company also provides an optional toll denial feature at no additional charge. The current rate for residential BLES is \$7.05 per month inside the corporation limits and \$9.05 outside the corporation limits.

The company applies the Lifeline support amount as follows: first, to waive the End User Common Line EUCL Charge of \$6.50 and second, to discount the residential BLES charge with the remaining balance of the support amount, in compliance with 47 CFR §54.403(b).

In 2014, the company began participating in the National Lifeline Availability Database (NLAD). This database is designed to help the company identify and resolve duplicate claims for Lifeline Program-supported service and to prevent future duplicates. All applications for Lifeline service are verified using NLAD in order to prevent duplicate service from being established.

Residential BLES customers may also add optional service features and subscribe to a variety of long distance calling plans offered by the company. These optional services are described on the company website (<http://www.fjtelephone.com>) under the Services link. No discount is applied to these services because the entire Lifeline support amount is exhausted after applying it to the EUCL and BLES charges.

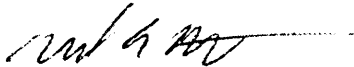

June 20th 2016,

Line 3010,

Pursuant to 47 CFR §54.313(f)(1)(i), Fort Jennings Telephone Company (SAC 300614) certifies that it is able to provide broadband service at actual speeds of at least 10 Mbps downstream/1 Mbps upstream to all customers within its study area, with latency suitable for real-time applications, including Voice over Internet Protocol, and usage capacity that is reasonably comparable to reasonably comparable offerings in urban areas, and that requests for such service are met within a reasonable amount of time.

In support of this certification, the Company's broadband network consists of a combination of fiber-to-the-premise that is capable of speeds in excess of 100 Mbps and ADSL2+/VDSL that is capable of speeds in excess of 10 Mbps downstream and 1 Mbps upstream. Requests for service are typically fulfilled within one to two business days, oftentimes on the same day as the request. The company provides unlimited usage with all of its broadband offerings.
