

Duke Energy wants to run a massive, high-pressure natural gas pipeline directly through densely-populated neighborhoods, schools, hospitals, day care centers, and places of worship in the Cincinnati area. This is an unprecedented project and a massive safety hazard--an explosion could kill or injure thousands of residents within the pipeline's path--and yet Duke is undeterred and will effectively be allowed to regulate itself.

Please step up and protect the people who've voted for you. Demand that high-pressure gas transmission lines remain clear of densely-populated areas. Enact stronger safety protections around the inspection and placement of these pipelines. Say NO to the Central Corridor Gas Pipeline Extension Project (OPSB case number 16-0253-GABTX).
