Subject: Case#16-0253-GA-BTX

I'm writing to express my opinion concerning the Duke Energy High-Pressure Transmission Pipeline. I realize how important it is to update old pipes and provide the needed energy to our growing population. To do this in such a populated area is completely absurd. The amount of twists and turns this will take will make the pipeline dangerous. Going near Blue Ash elementary, UC Blue Ash and Jewish hospital is so very dangerous. Populated areas is not a smart decision and hopefully the powers that be are a little smarter than this.

Please go around the city so we don't need to worry about affecting our children and the less fortunate that are hospitalized at Jewish.

We have enough to worry about with terrorism, do we really need to worry about what Duke Energy is going to do.

I am totally against this.

Thank you and I hope Duke makes the right decision for our city.
