COMMENT DESCRIPTION:

Case Reference #16-0253-GA-BTX I oppose the implementation of the gas line through Reading. I've recently moved to Reading for a new employment opportunity. I rent a house with my wife in downtown Reading, and enjoy living here. I would have to move if the pipeline was placed due to concerns of construction, public safety hazards, and safety for my family. I also view the use of this as an antiquated form of technology that we need to be working as a society to move away from. This pipeline would further move us in the wrong direction of where our country and society needs to be in terms of clean energy, especially when federal representatives have already positioned a movement to go in a cleaner direction. I also oppose a lengthy and disruptive construction project in front of my home, and would certainly move out of Reading if this proposal was passed.
