COMMENTS: We are residents of Madeira and very concerned about the proposed 30" pressurized pipeline considered for central Hamilton County. Our neighborhood is directly impacted by the proposed orange line. We do not believe that this highly pressurized and potentially dangerous gas line belongs in any neighborhood much less a neighborhood that is named one of the best in greater Cincinnati.

Our concerns include:

*reduced safety in the neighborhood during and post construction. No one can guarantee our safety from an explosion such as those in California!

*decreased property values-we pay a premium to live on this lovely street in Madeira. We have invested in renovating this home over the past 21 years.

*Construction will disrupt mature trees, reduce sound barriers from the highway and damage residential streets. In my experience utility companies do not restore areas to the former glory.
