FILE

Dear Ohio Power Siting Board,

As a resident of Cincinnati and concerned citizen, I am writing you to register my opposition to Central Corridor Pipeline Extension Project (Reference No. 16-253- GA-BTX).

To whom it may concern:

I cannot stress strongly enough my opposition to the the Central Corridor Pipeline Extension Project. Allowing the expansion through these densely populated areas poses a completely avoidable safety risk to these neighborhoods, especially the over 30 local public and private schools and 23 daycare centers within the dangerous "burn zone" along the proposed routes.

If images of children burning inside their school is not enough for you to throw your entire weight into killing this proposal, maybe imagining your response to "why didn't you stop this?" at a press conference will be.

I implore you, person of power, end this. Do not allow this pipeline expansion trough these neighborhoods.

Thank you in advance for your consideration.

-Alex Cline
Pleasant Ridge Montessori Dad
Cincinnati, OH

This pipeline will travel through densely populated areas, including my neighborhood and will pose a danger to residences, schools, businesses and houses of worship.

Unlike delivery pipelines, this pipeline will be under up to 720psi pressure and an accident or rupture could cause injuries, death and destruction of property within a radius of 1/3 mile.

I ask you to oppose this pipeline and encourage both Duke Energy and the Ohio Power Siting Board to reject this pipeline

Thank you for your consideration.

Regards,
Alex Cline
