Subject: Central Corridor Gas Pipeline Extension Project

I am writing in the hopes that you can STOP Duke Energy from moving forward with their high-pressure natural gas transmission line, 30 inches in diameter, that runs through Blue Ash, Ohio.

Please visit <https://nopecincy.org/> for the many reasons why this pipeline through my neighborhood needs to be stopped.

The final decision rests with the Ohio Power Siting Board, which is part of the state's Public Utilities Commission. The board staff will review Duke's application, and make recommendations to the Board members.

Please help put a stop to this pipeline going through Blue Ash, Ohio.

To try and keep this email short - Ask yourself if you would want Duke's pipeline going through your neighborhood? The answer is NO. Please help keep Duke Energy's pipeline going through mine.

Thank you,
Steve Seeger
