Subject: Oppose the Central Corridor Pipeline Extension Project

Dear Ohio Power Siting Board,

As a resident of Amberly and concerned citizen, I am writing you to register my opposition to Central Corridor Pipeline Extension Project (Reference No. 16-253- GA-BTX).

To Whom It May Concern: we are strongly opposed to the pipeline extension project, for safety and property value reasons. There are schools attended by our own children extremely close to the potential path of this pipeline, plus our own home is here. The railroad tracks near which one path is proposed are actually visible from part of our property. This is absolutely unreasonable. We have also been informed that the property value on our home will plummet with the installation of this gas line. Please do not allow this to happen. Thank you for your consideration.,

This pipeline will travel through densely populated areas, including my neighborhood and will pose a danger to residences, schools, businesses and houses of worship.

Unlike delivery pipelines, this pipeline will be under up to 720psi pressure and an accident or rupture could cause injuries, death and destruction of property within a radius of 1/3 mile.

I ask you to oppose this pipeline and encourage both Duke Energy and the Ohio Power Siting Board to reject this pipeline

Thank you for your consideration.

Regards,  
Michael Heigh
