Subject: Oppose the Central Corridor Pipeline Extension Project

Dear PUCO Commissioner Thomas W. Johnson,

As a resident of Blue Ash and concerned citizen, I am writing you to register my opposition to Central Corridor Pipeline Extension Project (Reference No. 16-253- GA-BTX).

I support my neighbors' opinion - please find an alternative! Blue Ash and Cincinnati leadership needs to do a better job of listening to their citizens. There are loyal folks who have lived in this area their whole lives that are beginning to think its time to move - not a good thing - and this will discourage new residents from moving in too - word of mouth travels fast. There have been several decisions made recently that have been made without keeping citizens in mind and this needs to change. Please think before you act.

This pipeline will travel through densely populated areas, including my neighborhood and will pose a danger to residences, schools, businesses and houses of worship.

Unlike delivery pipelines, this pipeline will be under up to 720psi pressure and an accident or rupture could cause injuries, death and destruction of property within a radius of 1/3 mile.

I ask you to oppose this pipeline and encourage both Duke Energy and the Ohio Power Siting Board to reject this pipeline

Thank you for your consideration.

Regards,
Emily Nauman
