Dear Ohio Power Siting Board,

As a resident of Amberly and concerned citizen, I am writing you to register my opposition to Central Corridor Pipeline Extension Project (Reference No. 16-253- GA-BTX).

This is a neighborhood that is all residential. There is no need to put this through an area that is completely residential. The cons out weigh the pros in using this area for Duke's needs. Please for the sake of the safety of people in this area change the route.

This pipeline will travel through densely populated areas, including my neighborhood and will pose a danger to residences, schools, businesses and houses of worship.

Unlike delivery pipelines, this pipeline will be under up to 720psi pressure and an accident or rupture could cause injuries, death and destruction of property within a radius of 1/3 mile.

I ask you to oppose this pipeline and encourage both Duke Energy and the Ohio Power Siting Board to reject this pipeline

Thank you for your consideration.

Regards,  
Margaret and Dan Fisk
