PUCO

Dear Commission Members:

We, the entire Kaiser family, are writing to you about your upcoming D.P.&L Case number 16-395-EL-SSO.

Any time a Monopoly is de-regulated, issues like these are always going to come up as a means for said Monopoly to increase its "bottom line". We ask that you hold the line on DP&L's increase request and deny it.

As far as Mr. Tom Raga's assessment of the results of an approved "security charge" generating more revenue than expected, you can bet that is exactly what they expect. A recent example where consumer credit was given to DP&L to do "so called" consumer advertising and education, makes one wonder where those worthless ads provide any benefit to the consumer; the money spent on those ads surely would have been more beneficial to consumers in a lower electric bill.

Hence, in this present case, we urge the Commission to not count on DP&L returning any excess they would get by this "security charge", and deny their request for increased revenue in the form of a rate increase. Thank you.

Respectfully yours,

Walt Kaiser & Family
