COMMENT DESCRIPTION:

As a conservation-minded consumer, I deeply oppose the proposed increase in the minimum amount that AEP would be allowed to charge customers, regardless of their usage. As a percentage rate, the proposed increase would cause my typical monthly bill to skyrocket. It was bad enough when AEP did away with the special lower billing rate/kwh for those of us who keep our usage low during peak periods, which took away the small reward for our energy conscious behavior. Now AEP wants to up the minimum amount for our monthly bills, and that's like punishing us for not wasting resources. No, thank you!
