

Case number: 15-1830-EL-AIR
FILE

Sept. 2, 2016

TO WHOM IT MAY CONCERN,
As a taxpayer, citizen
and homeowner in the
Dayton, OH area, I have
become aware of D.P. + L's
plan to increase the customer
charge by more than 3 ~~per~~
times the current amount. I
find this quite troubling. I
would much rather see
D.P. + L. increase their renewable
energy and energy efficiency
programs rather than
punishing the consumer and
negatively impacting the
environment.

Thanks for your time.

Sincerely,
Andrea Jones
