Subject: Oppose the Central Corridor Pipeline Extension Project

Dear Ohio Power Siting Board,

As a resident of Cincinnati and concerned citizen, I am writing you to register my opposition to Central Corridor Pipeline Extension Project (Reference No. 16-253- GA-BTX).

The plan to route a gas transmission line through residential neighborhoods is very misguided. The fact that it is more likely sized for interstate delivery of shale gas is very disingenuous on the part of Duke Energy and shows they are chasing profits at all costs over the needs to serve the public as a utility. Do not build this pipeline.

This pipeline will travel through densely populated areas, including my neighborhood and will pose a danger to residences, schools, businesses and houses of worship.

Unlike delivery pipelines, this pipeline will be under up to 720psi pressure and an accident or rupture could cause injuries, death and destruction of property within a radius of 1/3 mile.

I ask you to oppose this pipeline and encourage both Duke Energy and the Ohio Power Siting Board to reject this pipeline

Thank you for your consideration.

Regards,
Michael Albarella
