Subject: Oppose the Central Corridor Pipeline Extension Project

Dear Ohio Power Siting Board,

As a resident of Blue Ash and concerned citizen, I am writing you to register my opposition to Central Corridor Pipeline Extension Project (Reference No. 16-253- GA-BTX).

As a resident of Blue Ash and a soon to be mother, I am opposed to the pipeline project. The pipeline is currently proposed to run next to my condo community - how can I feel safe and secure in my own home with such a large danger in close proximity. The pipelines are not safe for our communities. Their explosions are deadly and rates of explosion are on the rise. We will feel the need to relocate to another community that better keeps our safety top of mind. How do you plan to protect your community?

This pipeline will travel through densely populated areas, including my neighborhood and will pose a danger to residences, schools, businesses and houses of worship.

Unlike delivery pipelines, this pipeline will be under up to 720psi pressure and an accident or rupture could cause injuries, death and destruction of property within a radius of 1/3 mile.

I ask you to oppose this pipeline and encourage both Duke Energy and the Ohio Power Siting Board to reject this pipeline

Thank you for your consideration.

Regards,
Leah Vanwoerkom
