NOPE Petition Opposing Duke's Central Pipeline Extension (16-0253-GA-BTX)

PUBLIC

- This is a high-pressure natural gas pipeline, unprecedented in diameter and scope.
- Proposed routes pass directly through densely-populated neighborhoods.
- This Introduces risk to homes, schools, hospitals, libraries, day care centers, nursing homes, and places of worship.
- An accident/explosion/fire could kill, injure and destroy everything up to ½ mile of pipeline's path and beyond.
- Duke would effectively be allowed to regulate itself, with no third party oversight.
- Our first responders are unprepared for and don't have resources to address an emergency that might result.
- This project would have undesirable environmental impact and destroy the beauty of our neighborhoods.

The undersigned oppose the installation of Duke's Central Corridor Gas Pipeline Extension Project, 16-0253-GA-BTX, whose proposed routes would affect Columbia Township, Blue Ash, Amberley Village, Reading, Montgomery, Kenwood, Madeira, Norwood, Pleasant Ridge, Evendale, Madisonville, Golf Manor, and other communities.

We urge the Ohio Power Siting Board to reject the project as proposed, and urge our elected officials to step up and protect their constituents. Keep these dangerous pipelines clear of densely-populated areas, and enact stronger safety protections around inspection and placement.
