Subject: Oppose the Central Corridor Pipeline Extension Project

Dear Ohio Power Siting Board,

As a resident of Blue Ash and concerned citizen, I am writing you to register my opposition to Central Corridor Pipeline Extension Project (Reference No. 16-253- GA-BTX).

Duke Energy has now filed their application with the Ohio Power Siting Board and plans to run a new, high pressure pipeline through the middle of residential areas, directly by schools and churches, immediately around Jewish Hospital, and next to the Kenwood Towne Center. This is a significant safety concern to all parties involved. Further, the economic impact on the individuals near the pipeline cannot be overestimated. Any and all action should be taken to prevent this project from being carried forward.

This pipeline will travel through densely populated areas, including my neighborhood and will pose a danger to residences, schools, businesses and houses of worship.

Unlike delivery pipelines, this pipeline will be under up to 720psi pressure and an accident or rupture could cause injuries, death and destruction of property within a radius of 1/3 mile.

I ask you to oppose this pipeline and encourage both Duke Energy and the Ohio Power Siting Board to reject this pipeline

Thank you for your consideration.

Regards,
Eric Mullins
