Case no. 16-395-EL-SSO

Dear Chairman Haque:

On behalf of Waibel Energy Systems, I am pleased to write this letter in support of Dayton Power and Light.

Waibel Energy Systems is proud to have provided over 40 years of superior building solutions to the businesses of the Miami Valley. We are a technology company, and a Trane Commercial sales office, based in Vandalia, Ohio, that believes in combining the best technology with dedicated people who use their knowledge and experience to make buildings and their systems outperform industry standards. Waibel Energy Services continues to grow and thrive and currently employs over 90 trained engineers, software developers, technical support, service technicians, construction/project managers and a professional sales and administrative support staff of over 30 associates.

We have been involved with DP&L's Energy Efficiency programs as a Channel Partner since 2010, assisting DP&L customers secure over \$1.2 million in energy efficiency rebates. We work closely with DP&L program managers to ensure commercial and industrial customers can realize the maximum benefit for the energy efficiency investments they make.

In 2014 Waibel Energy Systems partnered with the Southwestern Ohio Educational Purchasing Cooperative and DP&L to offer school districts in SW Ohio a unique savings opportunity. Leveraging Waibel's energy management expertise, EPC membership and communication capabilities, and DP&L's energy efficiency funding, thirty-two districts saved over 9.3 million MWh of electric energy and received over \$1.3 million in incentives.

All of us at Waibel Energy Systems appreciate DP&L's support of our community and their ongoing dedication to helping customers manage their energy use and save money.

Respectfully,

A handwritten signature in black ink, appearing to read "Dave Crosley", is written over a light blue horizontal line.

Dave Crosley  
General Manager  
Waibel Energy Systems

***Leading the Charge to Solve Hunger  
in the Miami Valley***

September 9, 2016

Chairman Asim Z. Haque  
Public Utilities Commission of Ohio  
180 East Broad Street  
Columbus, Ohio 43215

Case no. 16-395-EL-SSO

Dear Chairman Haque:

On behalf of The Foodbank, I am pleased to write this letter in support of Dayton Power and Light.

For 40 years, The Foodbank has served as the primary source of food for the hunger relief network in the Miami Valley. The Foodbank provides the infrastructure for more than 100 member food pantries, community kitchens and shelters that serve as the charitable hunger relief network in the area.

The Foodbank's mission is simple – we acquire and distribute food to non-profit agencies that feed the hungry - making it happen is a great undertaking that grows larger each year. Countless individual volunteers help us organize food drives, help sort and distribute food to the needy and help us raise much needed funds.

We greatly depend on our longstanding partner, Dayton Power and Light, and its many employees for outstanding corporate sponsorship and volunteer involvement. Dayton Power and Light works hard to help us help families in need.

The DP&L Foundation supports The Foodbank through grants which have helped us purchase much-needed equipment including a walk-in freezer and cooler units and two forklifts to manage inventory.

Each year DP&L employees roll up their sleeves collecting food items and donating cash to make a difference for food pantries around DP&L's 24-county service territory. Employees also donate to DP&L's annual Energy-to-Go campaign which works through The Foodbank to provide backpacks containing nutritious weekend meals for children at risk. When the children open those backpacks, they often find an inspiring handwritten note from a DP&L employee – letting the child know that someone cares.

Small groups of DP&L employees volunteer their time at The Foodbank, through our mobile pantries to distribute energy efficient CFL light bulbs to low income residents to help reduce their energy costs. And most recently, DP&L employees volunteered their time to help us plant a pollinator garden to increase production of vegetables in our raised bed gardens.

Each of these efforts allow The Foodbank to continue to feed those who may otherwise go hungry. DP&L provides The Foodbank with financial funding, volunteer enthusiasm and ongoing support of our mission in the Miami Valley. We are proud to have a partner, and friend, in DP&L.

Sincerely,

Michelle L. Riley  
Chief Executive Officer

Case no. 16-395-EL-SSO

Dear Chairman Haque:

As a representative of South Metro Regional Chamber of Commerce, I would like to submit this as a letter of support for Dayton Power and Light.

The South Metro Chamber has been serving businesses and communities in Southern Montgomery and Northern Warren Counties for over 40 years. The Chamber has been actively involved in projects with significant economic impact, such as the Austin Landing and the West Carrollton interchanges.

Over the years, DP&L has been an important member of our chamber and the communities we serve. They place a high priority on quality customer service and efficiently restoring power after severe storms, all with an emphasis on the safety of their employees and customers.

As a chamber of commerce, we place a high priority on supporting local businesses and the development of the region. DP&L plays an important role in this arena. They work with new businesses looking to move into the area, actively provide support to the Dayton Development Coalition, and contribute to a number of quality of life initiatives throughout the region.

In closing, I would like to say that DP&L is a valuable member of our community and actively supports this region's overall quality of life.

Best Regards,

  
Julia Maxton  
South Metro Regional Chamber of Commerce, President

Case no. 16-395-EL-SSO

Dear Chairman Haque:

On behalf of IJUS LLC, I am pleased to write this letter in support of Dayton Power and Light.

IJUS provides utilities with a comprehensive blend of software, data services and engineering expertise to get the most out of the project. From the perspective of engineering services alone, we provide the value of expertise backed with state of the art processes. Our core focus is the engineering, coordination, and strategic management of utility assets. We partner with utilities to manage opportunities and strategies in new construction and enhance the life and value of existing assets.

Since our founding in 2005, we have grown rapidly from our headquarters in Gahanna, Ohio and our six field offices, including one in Dayton. Our work for DP&L has been an important element of our growth as we have provided DP&L with engineering services for nearly 10 years. In total, we have more than 140 engineering and utility-related employees right here in Ohio.

As a service provider to multiple utilities, I can speak confidently as to the professionalism and quality of work delivered by DP&L. They have a solid focus on reliability and are very mindful of providing customers with cost-effective solutions.

In closing, we are pleased to be a valued partner of DP&L. They focus on reliability and quality customer service – and they have an ability to “get things done.” Those are qualities that we value as well.

William F Schulze, PE  
President  
IJUS LLC

Case no. 16-395-EL-SSO

Dear Chairman Haque:

On behalf of Lewis Tree Service, I am pleased to write this letter in support of Dayton Power and Light.

Founded in 1938, Lewis Tree Service has emerged as North America's second largest provider of vegetation management services to utilities and governments. Our customers rely on us to provide reliable, cost-effective vegetation management solutions without compromising safety and quality.

We have been a contracted partner of DP&L's for 8 years. We provide DP&L with vegetation management services throughout its service area. Our work with DP&L is responsible for 150 jobs in the west central Ohio area.

We appreciate the relationship we have with DP&L because they share our strong belief in quality work, customer service and safety. With regard to safety, DP&L holds its contractors, like Lewis, to the same high standards that it does for its own crews. On a regular basis, DP&L conducts safety briefing and management performs "safety walks" on our crews in the field, correcting unsafe practices and reinforcing positive safety practices. This emphasis on safety makes us all better at our jobs.

At Lewis, we work with a number of utilities throughout the country. Our experience with DP&L and our view of their management practices has been very positive. It is clear they have a focus on customer service, reliability and safety.

Sincerely,

*Eric R. Sampson*

Case no. 16-395-EL-SSO

Dear Chairman Haque:

On behalf of Becker Electric Supply, I am pleased to write this letter in support of Dayton Power and Light.

Becker Electric Supply has been a leading provider of electrical equipment supplies for nearly 100 years. Having operations in three states, with the majority of our facilities being in Ohio, working with customers to find the right mix of durable and cost effective products is our specialty. Our expertise in providing energy efficient solutions has helped countless customers throughout the region.

We have been a Channel Partner for DP&L's Energy Efficiency Programs since 2009 when the programs began. We provide DP&L customers with a variety of electrical product and automation solutions in order to ensure their energy efficiency projects align with rebate eligibility requirements.

Becker Electric Supply and DP&L have formed a working relationship that helps DP&L maintain high levels of customer satisfaction, while remaining the low-cost provider of energy efficiency programs in Ohio. Becker Electric Supply is proud to promote the Energy Efficiency programs DP&L offers their customers. Our goal is to aid customers in reducing overall operating costs and increase productivity; involvement with DP&L energy efficiency programs allows us to do that, and more, for our commercial clients.

All of us at Becker Electric Supply appreciate DP&L's support of our community and their ongoing dedication to help customers manage their energy use and save money.

Respectfully,

Tom Snyder

Dear PUCO,

I do not support Dayton Power and Light's (DPandL) attempt to increase my monthly bill to bail out aging, outdated coal plants. These plants struggle to compete against other cleaner sources of energy and are not competitive with today's market prices for electricity, while they also spew toxic pollution into our air and water.

At the same time, DPandL's request does not include any plans for the future. Inevitably, Ohio's energy sector must become cleaner and more efficient. The Company must begin prioritizing clean energy and energy efficiency projects while also developing plans to help communities where plants are retiring.

Locking Ohio customers into an outdated, dirty, and expensive energy source for a decade, with no plans for the future, is the height of fiscal, health, and environmental irresponsibility. Rather than debating a bailout of costly coal plants, DPandL should instead be sitting down to chart out a sensible move towards newer, cleaner energy sources that have the potential to create thousands of jobs in Ohio.

I hope that you will join me, and the tens of thousands that have already sent comments and letters opposing other utility bailout request, and oppose DPandL's coal bailout as well.

Sincerely,

Dear PUCO,

It is time for Ohio power companies to start using cleaner power alternatives. Coal will continue to be important to produce power for a long time, but now is the time to start the move to other cleaner power sources such wind and solar. These technologies are now available and competitive. USE THEM!!

I do not support Dayton Power and Light's (DPandL) attempt to increase my monthly bill to bail out aging, outdated coal plants. These plants struggle to compete against other cleaner sources of energy and are not competitive with today's market prices for electricity, while they also spew toxic pollution into our air and water.
