To whom it may concern: PUCO

I would like to encourage the Commission to reject AEP's plan to increase customer fees to support their coal mistakes. (PUCO case # 13-2385-EL-SSO).

The time to switch to renewable energy strategies is upon us and being resisted by Ohio's Assembly. Ohio and its PUCO should not be resisting this brighter future!

Change will be difficult but we must be determined.

Thank you,
Daniel N. Leavell
