COMMENT DESCRIPTION:

This is to certify that the images appearing are an accurate and complete reproduction of a case file document delivered in the regular course of business.
Technician ke Date Processed SEP 27 2016

There are many reasons to NOT have this pipeline run through Madisonville, but the most clear and critical reason is that there are 5 schools and over 30 churches on either side of Red Bank Road. Both of these have mass amounts of children and adults in at multiple times during the day.

Subject: SW Ohio Pipeline

Re. Case 16-253-GA-BTX. I urge you to reject these pipelines that threaten a grave catastrophe to my neighborhood. Safety must come first.

In addition, please reject Duke Energy's request that the OPSB waive the requirements to hold another public meeting on the routes proposed in their filing on Sept. 13, 2016 and to send letters of information to all affected homeowners along the routes. The public has a right to know what is happening in our own backyards. Thank you,

Jeff Capell

Case 16-253-GA-BTX. Please deny Duke Energy's request that the OPSB waive the requirements to hold another public meeting on the routes proposed in their filing on Sept. 13, 2016 and to send letters of information to all affected homeowners along the routes. The public is due transparency and information on this amended project. Duke's request to avoid these requirements, and thus transparency and information sharing, is inexcusable .
