COMPLAINT DESCRIPTION:

I am not sure I can attend the public hearing to once again raise rates. I am going to be 72 years old and the bills have gotten higher and higher. My electric billls this summer were \$204.21. I am very, very frugal and keep my temperature on 75 degrees, yet the cooling bills get higher and higher as do the gas bills and I keep my winter temperature on 62. What am I to do? I live on social security of \$1,000 a month and have to continue to do my job with no hopes of retirement. This is not what I was expecting as I approach senior status. Why do they need yet another raise?

We are all struggling to keep a roof over our heads and not live in poverty but with the utilities going higher and higher. I have never seen anyone read my meter and call but they just give me the usual canned speech and I continue to get very high bills. My house is very well insulated, I have new windows, new energy efficient appliances and it makes absolutely no difference. I do laundry once a week if necessary. I cannot cut back anymore. I hope with all sincerity that you care and use my statement in your decision to raise or not raise what they already received. Thank you. Sincerely, Barbara K. Weaks 68 Wampler Ave. Dayton Oh 45405

Subject: Don't bail out DPandL!
Date: Monday, September 26, 2016 5:45:12 PM

Dear PUCO,

I do not support Dayton Power and Light's (DPandL) attempt to increase my monthly bill to bail out aging, outdated coal plants. These plants struggle to compete against other cleaner sources of energy and are not competitive with today's market prices for electricity, while they also spew toxic pollution into our air and water.

At the same time, DPandL's request does not include any plans for the future. Inevitably, Ohio's energy sector must become cleaner and more efficient. The Company must begin prioritizing clean energy and energy efficiency projects while also developing plans to help communities where plants are retiring.

Locking Ohio customers into an outdated, dirty, and expensive energy source for a decade, with no plans for the future, is the height of fiscal, health, and environmental irresponsibility. Rather than debating a bailout of costly coal plants, DPandL should instead be sitting down to chart out a sensible move towards newer, cleaner energy sources that have the potential to create thousands of jobs in Ohio.

I hope that you will join me, and the tens of thousands that have already sent comments and letters opposing other utility bailout request, and oppose DPandL's coal bailout as well.

Sincerely,

Tammi Rose

COMMENT DESCRIPTION:

case number 16-395-EL-SSO I'm commenting on DP&Ls proposal to raise rates. I've lived in NC and Maine. My house in NC was all electric and I never had a bill over \$100. I still have a house in Maine. My bill in Maine was never over \$100. I have a house in Fairborn. My last bill was over \$138, and I don't even live there yet. I have 2 fish tanks and newer refrigerator and central air on. I do 3 loads of laundry a week. I don't stay there, I stay in Springfield, but the electric bill is still over \$100 a month. When I do move in I can only imagine what my electric bill will be. If anything, DP&L needs to lower their electric rates. I stay at the house my Dad left to me in Springfield. I have lights on, ACs running, TV etc. and the bill was only \$59.95.
