PUCO

Case Number 15-1830-EL-AIR

September 14, 2016

I am writing to oppose the DP&L plan to increase the customer charge by more than 300%.

As a homeowner and a citizen concerned about the environment, I go to great lengths to conserve our natural resources. In 2015, I installed solar panels on my house not intending to be able to recoup my investment but to create renewable energy to contribute to the general welfare.

Rather than being rewarded for this action, the state regulations on solar energy (well-influenced by the electric companies) stifles and handcuffs home owners so that we must continue paying for much less service than previously received.

DP&L should be investing in renewable energy sources much more than they are now and they should be encouraging people like me to be their partners. The State of Ohio is not exempt from criticism. The state for too long has allowed these companies to do whatever they want and to pass laws and programs that benefit the electric companies rather than the citizens and the long term environmental health of our state.

I urge you to deny this request by DP&L.

Sincerely,

Marie Raffio  
814 Jamestown Drive  
Miamisburg, OH 45342

RE: Case # 15-1830-EL-AIR

I am strictly opposed to  
DPL increasing residential  
fixed fees. Instead, DPL  
should increase renewable  
energy & efficiency programs.  
It is just common sense!

William & Diana Gardner

Sept 14, 2016

Dear Sirs;

I believe D P & L should  
increase their renewable  
energy & energy efficiency  
programs, instead of  
increasing customer charges.

Thank you-

*J. Dave Elmore*

Sept. 14, 2016

Dear Sirs -

I am opposed to DP&L's plan  
to increase costs for  
consumers.

DP&L would do better to encour-  
age energy efficiency rather than  
punish consumers that are doing  
what they can to reduce their  
use.

Please hear my voice.

Sincerely -

Kathy Elmore

As retirees on fixed incomes we are  
opposed to Dayton Power & Light's  
plan to increase the "customer  
charge" to \$13.73/mo.!!

DP+L needs to increase programs  
that promote efficiency. DP+L  
should increase renewable  
energy. Why are you going to  
punish us for turning back the  
thermostat in winter & up in  
summer, for using less energy?

RE: CASE NUMBER 15-1830 - EL-AIR

TO WHOM IT MAY CONCERN,

I AM WRITING TODAY TO VOICE MY OPPOSITION  
TO DAYTON POWER AND LIGHT'S PLAN TO INCREASE  
PRICES TO CONSUMERS BY MORE THAN THREE TIMES.

I UNDERSTAND THAT THE COST OF ENERGY HAS  
INCREASED; HOWEVER, THE COST SHOULD NOT BE SHIFTED  
TOTALLY TO THE CONSUMER!

INSTEAD CONSUMERS SHOULD LEAD THE MOVEMENT  
TO USING CLEANER ENERGY BY INSTALLING SOLAR  
PANELS, GEO-THERMAL HEAT PUMPS, WIND POWERED  
TURBINES ETC... THESE EFFORTS SHOULD BE REWARDED  
WITH ECONOMIC INCENTIVES BY POWER COMPANIES LIKE  
DP&L.

WHILE IN A FRAGILE ECONOMIC RECOVERY, INCREASING  
ENERGY COSTS LIKE THIS WOULD TRIGGER YET ANOTHER  
RECESSION SIMILAR TO THE 1970'S CARTER ADMINISTRATION  
ERA.

PLEASE RECONSIDER YOUR ACTION!

SINCERELY,

Hung Nguyen

Dear Commission,

The citizens of the great state of Ohio deserve integrative thinking and leadership to make the shift to clean energy solutions with thoughtful planning and great urgency. It is not acceptable that Ohio lags the nation in this area.

My family and I care about reducing toxic pollution and saving money on our electric bills. Limiting pollution to our air and water leads to fewer deaths and sicknesses for everyone, inside and outside of Ohio.

It is not acceptable to create a false choice for consumers. We can have the air and water we deserve at an affordable price. We are counting on your leadership to create a bridge between the energy of yesterday and the energy of tomorrow.

Best Regards,

A handwritten signature in black ink, reading "Elliott Jay Wagstaff". The signature is fluid and cursive, with a large, stylized "E" at the beginning and a large "W" at the end.

Dear PUCO,

I'm opposed to Dayton Power & Light's plan to increase the customer charge from \$4.25 to \$13.73.

I'd like to see DPL increase their renewable energy and energy efficiency programs.

Customers should be rewarded, not punished for reducing their use.

*Dear Friend,*

*As you know so many of us are strapped for money. We have  
Medical and cost of living expenses. However, we do not have  
An increase in our pay.  
So, I am opposed to the DP&L plan to implement the "Customer Charge"  
plan.*

*Case number 15-1830-EL-Air.*

*Please keep in mind that I am already using low energy lights and  
appliances. If there is a flat charge there may be no incentive for others  
To try and conserve energy.*

*Sincerely,*

To Whom it May Concern,

I'm writing to let you know I'm adamantly opposed to the monopolistic DP&L's plan to once again increase their fees. Customers are handcuffed when this is allowed to happen and until renewable energy is a viable alternative for Ohioans... it will only get worse. DP&L should be encouraging and increasing energy efficiency and renewable energy, not punishing it.

Please don't invest my hard-earned tax dollars in the archaic past... instead look to the future. Likewise, PLEASE listen to residents/consumers and not just the "Power" players.

Sincerely,

Ian Dickey
