To Whom It May Concern,

I am very concerned about new plans to put a pipeline in Hamilton County, especially when the focus should be moving off of dangerous non-renewable energy sources. I am wondering what I can do to help focus future energy investments into renewable and less risky modes of energy generation. I am a new resident of Ohio and Hamilton County, and I personally have been moving my appliances off of natural gas as quickly as is feasible.

Thank you for your help.
