**Re: Trishe Wind Ohio, LLC, Case No. 13-197-EL-BGN**

Dear Ms. McNeal:

The December 16, 2013 Opinion, Order, and Certificate approving Northwest Ohio Wind Energy, LLC's [now known as Trishe Wind Ohio, LLC ("Trishe")] Certificate of Environmental Compatibility and Public Need ("Certificate") and the October 1, 2013 Supplement to Amended Application ("Supplement") established a set of conditions and supplemental commitments as part of the Certificate.

Within this set of conditions and commitments, **Supplement Commitment No. 5** requires that:

**Applicant will also have a streamside vegetation restoration plan that minimizes impacts associated with the clearing of riparian vegetation. At least 30 days prior to the commencement of clearing activities in riparian areas, Applicant will submit the plan to OPSB Staff for review and acceptance.**

Since the 2016 construction phase will not generally involve the clearing of riparian vegetation, a vegetation restoration plan will not be required for this phase of the construction. Thus, this letter is to inform the OPSB Staff that Trishe is in compliance with this commitment.

If you have any questions please call at the number listed above.

Sincerely,

Sally W. Bloomfield
