CASE\_NUMBER: 16-0253-GA-BTX

COMMENTS: Duke Energy has filed an application to place a high-pressure natural gas transmission pipeline through Madisonville, a dense urban area in Cincinnati, Ohio, (Hamilton County). The proposed pipeline is in close proximity to five schools, three apartment complexes, and heavily populated residential areas. Permanent tree loss along the proposed pipeline would increase exposure to highway noise and pollution. This pipeline is harmful to the Madisonville residents. Please block Duke Energy's application for this pipeline through Madisonville (Cincinnati, Ohio)

Subject: Gas Pipeline through Hamilton County

I am adding my name to the protest against Case#16-0253-GA-BTX. This pipeline would run by a public elementary school—John P Parker Elementary School. This pipeline would also use easement through a heavily populated city area and tear up existing forestry that is being used to reduce noise and pollution from nearby highways.
