

Petition to the PUCO to deny the proposed price increases or our water service rates.

Sponsored by: The residents of Madison Township

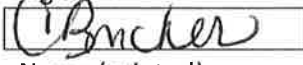

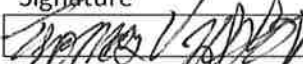

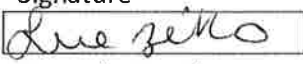

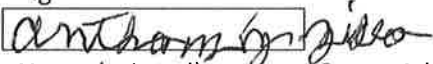

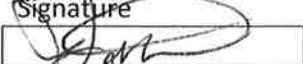

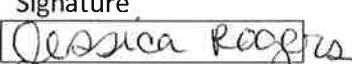

Because our Aqua water service is a monopoly, we cannot take our business to another company: we have one choice for our water. Aqua is not accountable to our residents, and is not responsible for promoting the health and well-being of the community. They look towards their investors – not customers – for policy decisions because those impact profitability. We must trust the PUCO to watch out for our interests. Our very community has seen the endless approval of water rate hikes. We are told, that the PUCO ensures that Aqua operates at a 6% profit margin in Ohio, however a quick look at the company profits and CEO compensation calls the PUCO's ability to regulate these profits into question. Please ensure put the brakes on the constant cost increases and ensure that Aqua operates at a margin that is fair to our residents.

Petition to the PUCO to deny the proposed price increases or our water service rates.

Sponsored by: The residents of Madison Township

Because our Aqua water service is a monopoly, we cannot take our business to another company: we have one choice for our water. Aqua is not accountable to our residents, and is not responsible for promoting the health and well-being of the community. They look towards their investors – not customers – for policy decisions because those impact profitability. We must trust the PUCO to watch out for our interests. Our very community has seen the endless approval of water rate hikes. We are told, that the PUCO ensures that Aqua operates at a 6% profit margin in Ohio, however a quick look at the company profits and CEO compensation calls the PUCO's ability to regulate these profits into question. Please ensure put the brakes on the constant cost increases and ensure that Aqua operates at a margin that is fair to our residents.

Petition to the PUCO to deny the proposed price increases or our water service rates.

Sponsored by: The residents of Madison Township

Because our Aqua water service is a monopoly, we cannot take our business to another company: we have one choice for our water. Aqua is not accountable to our residents, and is not responsible for promoting the health and well-being of the community. They look towards their investors – not customers – for policy decisions because those impact profitability. We must trust the PUCO to watch out for our interests. Our very community has seen the endless approval of water rate hikes. We are told, that the PUCO ensures that Aqua operates at a 6% profit margin in Ohio, however a quick look at the company profits and CEO compensation calls the PUCO's ability to regulate these profits into question. Please ensure put the brakes on the constant cost increases and ensure that Aqua operates at a margin that is fair to our residents.
