☒ No ☐ Yes

If yes, provide a separate attachment labeled as **Exhibit B-6 "Disclosure of Certification Denial, Curtailment, Suspension, or Revocation"** detailing such action(s) and providing all relevant documents.

C. APPLICANT FINANCIAL CAPABILITY AND EXPERIENCE

PROVIDE THE FOLLOWING AS SEPARATE ATTACHMENTS AND LABEL AS INDICATED:

C-1 **Exhibit C-1 "Annual Reports,"** provide the two most recent Annual Reports to Shareholders. If applicant does not have annual reports, the applicant should provide similar information in Exhibit C-1 or indicate that Exhibit C-1 is not applicable and why. (This is generally only applicable to publicly traded companies who publish annual reports)

C-2 **Exhibit C-2 "SEC Filings,"** provide the most recent 10-K/8-K Filings with the SEC. If the applicant does not have such filings, it may submit those of its parent company. An applicant may submit a current link to the filings or provide them in paper form. If the applicant does not have such filings, then the applicant may indicate in Exhibit C-2 that the applicant is not required to file with the SEC and why.

C-3 Exhibit C-3 “Financial Statements,” provide copies of the applicant’s two most recent years of audited financial statements (balance sheet, income statement, and cash flow statement). If audited financial statements are not available, provide officer certified financial statements. If the applicant has not been in business long enough to satisfy this requirement, it shall file audited or officer certified financial statements covering the life of the business. If the applicant does not have a balance sheet, income statement, and cash flow statement, the applicant may provide a copy of its two most recent years of tax returns (with social security numbers and account numbers redacted).

C-4 Exhibit C-4 “Financial Arrangements,” provide copies of the applicant’s financial to satisfy collateral requirements to conduct retail electric/gas business activity (e.g., parental or third party guarantees, contractual arrangements, credit agreements, etc.).

Renewal applicants can fulfill the requirements of Exhibit C-4 by providing a current statement from an Ohio local distribution utility (LDU) that shows that the applicant meets the LDU’s collateral requirements.

First time applicants or applicants whose certificate has expired as well as renewal applicants can meet the requirement by one of the following methods:

1. The applicant itself stating that it is investment grade rated by Moody’s, Standard & Poor’s or Fitch and provide evidence of rating from the rating agencies.
2. Have a parent company or third party that is investment grade rated by Moody’s, Standard & Poor’s or Fitch guarantee the financial obligations of the applicant to the LDU(s).
3. Have a parent company or third party that is not investment grade rated by Moody’s, Standard & Poor’s or Fitch but has substantial financial wherewithal in the opinion of the Staff reviewer to guarantee the financial obligations of the applicant to the LDU(s). The guarantor company’s financials must be included in the application if the applicant is relying on this option.
4. Posting a Letter of Credit with the LDU(s) as the beneficiary.

If the applicant is not taking title to the electricity or natural gas, enter “N/A” in Exhibit C-4. An N/A response is only applicable for applicants seeking to be certified as an aggregator or broker.

C-5 Exhibit C-5 “Forecasted Financial Statements,” provide two years of forecasted income statements for the applicant’s **ELECTRIC related business activities in the state of Ohio Only**, along with a list of assumptions, and the name, address, email address, and telephone number of the preparer. The forecasts should be in an annualized format for the two years succeeding the Application year.

- C-6 Exhibit C-6 "Credit Rating,"** provide a statement disclosing the applicant's credit rating as reported by two of the following organizations: Duff & Phelps, Dun and Bradstreet Information Services, Fitch IBCA, Moody's Investors Service, Standard & Poors, or a similar organization. In instances where an applicant does not have its own credit ratings, it may substitute the credit ratings of a parent or affiliate organization, provided the applicant submits a statement signed by a principal officer of the applicant's parent or affiliate organization that guarantees the obligations of the applicant. If an applicant or its parent does not have such a credit rating, enter "N/A" in Exhibit C-6.
- C-7 Exhibit C-7 "Credit Report,"** provide a copy of the applicant's credit report from Experian, Dun and Bradstreet or a similar organization. An applicant that provides an investment grade credit rating for Exhibit C-6 may enter "N/A" for Exhibit C-7.
- C-8 Exhibit C-8 "Bankruptcy Information,"** provide a list and description of any reorganizations, protection from creditors or any other form of bankruptcy filings made by the applicant, a parent or affiliate organization that guarantees the obligations of the applicant or any officer of the applicant in the current year or within the two most recent years preceding the application.
- C-9 Exhibit C-9 "Merger Information,"** provide a statement describing any dissolution or merger or acquisition of the applicant within the two most recent years preceding the application.
- C-10 Exhibit C-10 "Corporate Structure,"** provide a description of the applicant's corporate structure, not an internal organizational chart, including a graphical depiction of such structure, and a list of all affiliate and subsidiary companies that supply retail or wholesale electricity or natural gas to customers in North America. If the applicant is a stand-alone entity, then no graphical depiction is required and applicant may respond by stating that they are a stand-alone entity with no affiliate or subsidiary companies.

Company History

National Utilities Refund LLC, “NUR”, DBA National Energy, is a utility bill auditing firm that uncovers billing discrepancies within the utility invoices for commercial organizations. NUR was formed in 2011 by Ralph DiMaio and Vincent DiMaio and has grown to service over 250 active customers across the country. In 2012, NUR created the DBA National Energy and contracted with an established energy broker in Texas in order to offer energy procurement services to current customers. The DBA National Energy was created and is used when procuring energy rates for customers in order to eliminate any potential customer confusion between our other utility auditing services.

National Energy is seeking an energy broker license in order to better service its customers. Over the years, National Energy contracted with several licensed energy brokers and found that the majority of them had very little knowledge in the industry. With an energy broker license, National Energy can have direct communication with the suppliers which will result in a faster turnaround for customer requests and questions. In addition, a license will allow National Energy to have control over which suppliers we represent and recommend to our customers, which is key since some suppliers are more error prone than others.

Dear Taxpayer,

Welcome to Pennsylvania's business community. The Department of Revenue has been advised that you are authorized to conduct business in Pennsylvania.

The above Corporate Account ID number has been assigned to your business for tax reporting purposes. Please reference this number on all correspondence with the department. The taxes you are required to report annually are also listed. Carefully review this information and make sure your name, address and other tax information is complete and accurate.

If no federal employer identification number (EIN) is indicated above, please provide this number as soon as it is available to you from the federal government. Write the federal EIN in the top right-hand corner in the blank space and return this letter to us.

If there are changes or additions to be made regarding your account, make the appropriate adjustments on a copy of this letter and return it promptly to:

PA DEPARTMENT OF REVENUE
PO BOX 280705
HARRISBURG PA 17128-0705

PLEASE NOTE: Section 601 of the Tax Reform Code of 1971 includes limited liability companies and business trusts in the definition of a corporation for capital stock/foreign franchise tax purposes, regardless of how an entity files with the Internal Revenue Service (IRS). Under Section 401, any entity that elects to file as a corporation with the IRS is subject to corporate net income tax. In the case of limited liability companies and business trusts, this determination will be made upon review of the PA Corporation Tax Report.

Pay particular attention to the month your business or fiscal year ends for the following reasons:

- For most taxes, the annual report must be filed within 105 days after the close of the tax year.
- For capital stock/foreign franchise, corporate net income and mutual thrift taxes, the first quarterly estimated payments are due within 75 days following the incorporation/authority date.
- A federal sub-chapter S corporation desiring not to be taxed as a PA S corporation is required to file form REV-976 on or before the due date or extended due date of the first tax period for which it is to be in effect. REV-976 is available at www.revenue.state.pa.us.

Jurisdiction of Operation

National Utilities Refund LLC DBA National Energy is not currently licensed in any State to procure electricity. National Energy currently procures energy through a licensed energy broker. However, National Energy filed an electric and natural gas broker application in 2016 for Pennsylvania, which is currently in the process of being approved by the Pennsylvania Public Utility Commission.

Experience and Plans

Sales, Marketing, and Customer Service Plans

The majority of NUR's new business is derived from word of mouth and customer referrals. In return, customer satisfaction is our number one priority. And, as our client's utility advocate, we are fully aware of the importance of delivering on our promises – it's key to maintaining our reputation as an industry leader in customer satisfaction. We strive to develop longstanding business relationships and our vision is to consistently meet the evolving needs of our customer's.

Once National Utilities Refund LLC, "NUR", DBA National Energy becomes a licensed energy broker, we will offer electric supply contracts to our current clientele and prospect new customers through our established marketing techniques. We currently acquire new clients through face-to-face direct marketing and we will continue to prospect customers through the same means once a licensed electric broker. Currently, Ralph DiMaio and Vincent DiMaio actively pursue new customers by attending trade shows, industry associations, and local networking events. In addition, we have four independent sales contractors that perform the same sales techniques in the tristate area.

Ralph DiMaio is in charge of sales and marketing training for the company as well as the independent sales contractors. In order to ensure that all marketing is performed in an ethical manner, Ralph developed a sales system and training manual for our independent contractors. In addition, he continually educates them by hosting bi-weekly sales training calls. Ralph also performs follow-up calls with each customer and asks about their experience working with us to see if there is anything we can improve on.

Customer Complaints

In order to limit customer complaints, National Energy will use a systematic sales approach to promote transparency and ensure customer satisfaction. In addition, several checks and balances will be established in order to prevent errors. For example, if the customer is unsure of their contract end date with their current supplier, National Energy can assist the customer by reviewing their current supply agreement.

Customer Complaints can be filed via mail, phone, and/or fax. All customer complaints will promptly be addressed by Ralph DiMaio and/or Vincent DiMaio within 24 hours. In the event a customer's complaint involves an error billed by the energy supplier we recommended, we will resolve the issue with the supplier for the customer.

Experience and Plans (cont.)

Business Operational Plans

Prospecting

- *New Customers:* Direct Marketing Techniques IE: Networking events, referrals, and trade shows. No mass marketing techniques or mailers, only direct forms of communication through phone and email. Schedule meeting for a sales presentation.
- *Current Clients:* Inform current clientele that National Energy is now a licensed broker and request an appointment to go over the client's current energy procurement needs.

Sales Presentation

- Introduce National Energy, understand customer's needs, and go over various electric rate options; variable, fixed, block & index.
- Identify customer's current contract end date or obtain a copy of the customer's current agreement if the customer is unsure.
- Present a letter of authorization for the customer to grant National Energy permission to obtain pricing from various electric suppliers.
- Obtain a copy of the customer's energy bills and/or list of accounts to submit for pricing.
- Schedule an appointment on a future date to go over the rates with the customer.

Procure Electric Rates

- Compile the customer's accounts and billing information into an excel document and note any specific pricing requests.
- Send the customer's account data to various electric suppliers who can fulfill the customer's specific needs and rate requests.
- Compile the supplier's rates into a proposal as we receive them.
- Verify whether or not each supplier's rate can be compared apples-to-apples. If not, note the difference between the rates; does not include pass-through charges, GRT, and/or etc.
- Obtain a copy of the supplier's electric agreement for the customer to review.

Present Supplier Rates

- Present a report to the customer that compares all of the supplier rate options so they can make an informed decision.
- If the customer chooses to move forward with an electric rate, help the customer complete the supplier's agreement.
- Send the supplier a copy of the executed agreement and any other required documents.
- If the customer declines the rates, inform the suppliers and schedule a date to refresh the rates for the customer, unless they chose another supplier.

Post-procurement Review (Optional)

- Per the customer's request, obtain a copy of their supplier bill to verify that it is being billed in accordance with the supplier agreement and make sure the tax exemption certificates properly transferred over, where applicable.
- If a billing error is uncovered on the supply charges, notify the supplier and perform the necessary follow-up work to get the error corrected and credited on the customer's invoice.
- Note the customer's contract end date and update CRM for renewal follow-up.

EXHIBIT B-3

Summary of Experience

National Utilities Refund LLC, “NUR”, DBA National Energy, is a utility bill auditing firm that uncovers billing discrepancies within the utility invoices for commercial organizations all over the country. NUR has experience verifying electric and natural gas tariffs/rate schedules in deregulated and regulated energy markets. Our utility bill audit will verify the most cost efficient rate schedule for a business, determine the accuracy of their historical meter reads, confirm whether or not a meter was properly installed, and uncover sales tax exemptions for eligible organizations. In addition, NUR verifies the accuracy of 3rd party energy supplier bills and agreements. We can verify if an energy supplier met the contracted start/end dates, audit the contract supply rate versus the actual billed rate, uncover hidden pass-through charges, and rectify sales tax billed to exempt organizations. Having this type of knowledge is crucial to be a successful energy broker. However, in our experience, having worked with several energy brokers throughout the years, very few are truly able to verify if a customer is being incorrectly billed by a supplier.

In 2012, NUR created the DBA National Energy and contracted with an established energy broker in Texas in order to offer energy procurement services to our current customers. The DBA National Energy was created and is used when procuring energy rates for customers in order to eliminate any potential customer confusion between our other utility services. The energy broker that National Energy contracted with is licensed in 10+ states, including Ohio, so National Energy is experienced in the Ohio energy procurement market and familiar with all of the electric and gas utility tariffs. The majority of National Energy’s customers are medium to large businesses less than 2,000,000 kWh and none of the customers have been aggregated to combined electric loads. This is due to the difficulty of arranging multiple customers to agree to one agreement. In return, National Energy does not intend to aggregate customers and/or accounts that are unrelated to each other. Overall, National Energy submitted over 30 energy contracts to licensed energy brokers for customers in Ohio.

When National Energy submits customer contracts to the energy broker for processing, National Energy also performs a complimentary review for our customers after they receive their first supply bill from the supplier they chose. The “post procurement review” helps ensure that the customer’s bill coincides with the supplier agreement. Unfortunately, some energy suppliers seem to be more error prone than others, which is another reason why National Energy is seeking an energy broker license. With an energy broker license, National Energy can have control over which suppliers we represent and recommend to our customers which will increase customer satisfaction and eliminate customer complaints.

Company Biography

Member of National Utilities Refund, LLC, DBA National Energy, and lead auditor on energy efficiency, bringing over 30+ years as a consultant within the utility and construction industry. Ralph has a thorough background in water, sewer, and energy tariffs and he has broken down and redesigned some of the most complex manufacturing and waste water energy projects in the Northeast. With this experience, Ralph is able to bridge a connection between a client's energy consumption and the most cost efficient rate option by analyzing their run hours and machine use. In most states, a manufacturer may be entitled to sales tax exemption on their electric and natural gas; Ralph is experienced in calculating and filing the necessary documentation for a manufacturer to properly claim a partial or full state tax exemption on the utilities.
