RE: Opposition for AEP Proposal to Increase Mandatory
Residential Fixed Fees

Members of the Commission;

My wife & I strongly oppose AEP's plan to in essence triple the Residential Fixed Fees charges. We believe that AEP Residential Fixed Fee charges are excessive and AEP is simply attempting to have its customers foot the cost of their lack of management and innovation. What incentive is there for AEP to peruse alternative renewable energy sources (which they should have been already pursuing) when they can simply shift their costs to their customers ? Additionally, what does this excessive "fixed charge" say to those customers whom are diligently trying to reduce their energy usage even while their electric supplier has not "put their money where their mouth is". Is it too much to expect that our public utilities be both good leaders and stewards ... and are held accountable ?

We rely upon the Commission to represent us and so we respectfully request that the Commission members due the right thing and tell AEP that the current Residential Fixed Fee charges are reasonable and increasing sail fees over 100% is both not reasonable nor responsible .Let's encourage the right behavior for energy conservation and management not only by the consumers but also by the utility companies themselves . We can do better !!!!!

CASE # 13-2385-ESP/
16-1852-EL-SSO

DEAR PUBLIC UTILITIES COMMISSION,

I AM OPPOSED TO AEP'S PLAN TO
MORE THAN DOUBLE OUR CUSTOMER
SERVICE CHARGES.

SHAME ON YOU.

WE ARE LIVING IN AN EVER CHANGING
UTILITIES WORLD. WE ARE BUYING
EFFICIENT APPLIANCES TO REDUCE OUR
USE. WE ARE BUYING HYBRID CARS
TO SAVE THE ENVIRONMENT.

DO NOT PASS ALONG YOUR LOSS
IN REVENUE CREATED BY SMART
THINKING CONSUMERS TO PUNISH US
FOR USING LESS OF YOUR PRODUCT.
IT IS POOR BUSINESS AND REALLY
A DISPICABLE ACT.

GREED IS REALLY TURNING THE
KNOBS AND OPERATING YOUR LEVERS.
IT NEEDS TO STOP.

DO NOT INCREASE OUR CUSTOMER
CHARGES DUE TO SMARTER THINKING ON
OUR PART. ITS TRANSPARENT AND
JUST FILTHY.

S. CHASE WILLOX

29301 OSBORN RD BAY VILLAGE OH 44140

Public Utilities Commission,

12-22-16

I want to see AEP increase their renewable energy and energy efficiency programs. Renewable energy is the only hope for our future and we need to start taking steps towards it today. Increasing the customer charge will likely lead to higher costs particularly in low-use and low-income customers. It is not fair to make customers pay for their power before they even turn it on. AEP should be encouraging energy efficiency, not punishing customers who reduce their use. Thank you for taking the time to read my concerns.

paige Bobbitt

~~Paige Bobbitt~~

Columbus, OH

16-1852-EL-SSO
case number 13-2385-ESP

To Whom It May Concern,

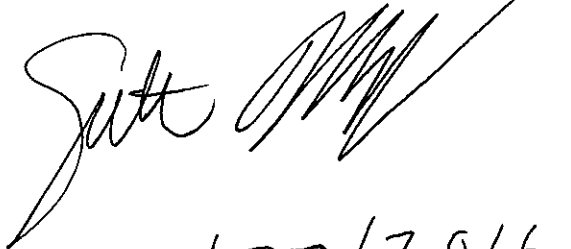

I have learned about the AEP proposal to increase the "customer charge" or fees to it's customers. I am a strong supporter of renewable energy and it seems AEP is punishing people like me that are trying to cut down on electrical use by replacing appliances with more efficient appliances, installing solar panels and other forms of reducing waste and usage of non-renewable energy.

I want to challenge PUCO and AEP to lead and make significant investments in renewable energy and energy programs. AEP and all energy providers should encourage energy efficiency and not punish customers like me who reduce their use.

Thanks you in advance for you consideration.

Gerald Maloney

Bay Village, OH

To the Public Utilities Commission:
Thursday, December 29, 2016

I'm opposed to the plan to more double the customer charge.

Renewable energy and energy efficient programs are better.

Using coal is not an option. It is harmful to the earth to us fossil fuels.

Fracking gas is worse and it is just another fossil fuel which harms the earth.

AEP should encourage energy efficiency, not punishing customers.

RE: Case number ~~13-2385-ESP~~

16-1852-EL-880

To whom it may concern,

I am opposed to AEP's plan to more than double the customer charge.

Our focus should be on driving energy efficiency programs and encouraging utilities like AEP to invest in renewable energy production.

Increasing the clean production and the efficient consumption of energy is essential for the health of Ohio's environment.

Continued investment and reliance on coal power should be discouraged.

Sincerely,

Case #: 16-1852-EL-SSO

December 22, 2016

Dear Public Utilities Commission,

In light of the recently proposal by AEP to increase upfront, mandatory residential fixed fees I am writing in concern with the increased costs to consumers. This increase will be equivalent to an additional bill each month.

I am opposed to the AEP's plan to more than double the custom charges. As a consumer I would like to see AEP increase their renewable energy and energy efficiency programs. AEP should encourage energy efficiency, not penalize and punish customers who are conservative in their usage.

Please consider all of the implications and long term effects that this will have on consumers and the environment.

Thank You,

Re: Case Number: 16-1852-EL-~~350~~

Dear Sirs and Madams,

Please understand that I am opposed to AEP's plan to more than double the customer charge and I would appreciate it, if AEP would increase the renewable energy and energy efficiency programs. **It only makes sense, and is in line with creating a safe, clean future for our children.**

In addition, we do everything we can to reduce energy use in our household: turn off lights, invest in insulation, teach our kids to be careful users of energy. That should be rewarded and AEP should encourage energy efficiency, not punish customers who reduce their use.

Sincerely, your fellow Ohio citizen,

A handwritten signature in black ink, appearing to read "Karen Majidzadeh", written in a cursive style.

Karen Majidzadeh

381 Vinwood Lane

Powell, OH 43065

Dear Public Utilities Commission:

CASE #: 16-185

As a homeowner concerned about the environment and rising utility costs, I write to express my concern on several issues:

- My opposition to AEP's plan to more than double my charge as a customer.
- My desire to see AEP increase their renewable energy and energy efficiency programs.
- My strong belief that AEP needs to encourage energy efficiency, not punish customers, like me, who are trying to reduce usage.

We need to be aware of our carbon footprint we leave future generations. I know that as a parent and steward of the earth. And, as parent, cannot afford rising utility costs.

Sincerely,

Karen M. H.

To whom it may concern, *Case # 16-1852-EL-SSO*
