Public Utilities Commission,

I'm opposed to AEP's plan  
to more than double the customer  
charge.

I want to see AEP increase  
their renewable energy + energy  
efficiency programs.

AEP should be encouraging energy  
efficiency, not punishing  
customers who reduce their use.

Dear Public Utilities Commission:

In regard to Case # 13-2385-ESP,  
and 16-1852-EL-SSO,

I am writing in opposition of  
AEP's plan to more than double

the customer charge on our

electric bills. AEP should be

encouraging energy efficiency,

increasing their renewable energy  
and energy efficiency programs.

I am against fixed rate charges

and ask AEP to reconsider

their plan.

16-1852-EL-SSO

TO WHOM IT MAY CONCERN,

Yes, I'm fully opposed to AEP's plan to 2x customer service charges in lieu of designing more efficient ways in logistics, delivery and raw cost. The easy way out is to make the consumer cover the costs of such expenditures. There needs to be firm government control and mandates to drive costs down to the consumers consistently!

To whom it may concern.

We are very concerned with your plan to more than double your rates for consumers. This amounts to a ~~Regressive~~ tax increase on poor people. There has to be a better way to reduce energy costs thru increasing renewable energy and encouraging energy efficiency. Do not punish those that make an effort. Remember you are a monopoly and should be aware of your impact on the poor and less fortunate.

I am writing regarding case # 13-2385-ESP.  
As a concerned and tax paying citizen, I am strongly  
opposed to AEP's plans to increase the 'Customer Charge'  
by 119%. As a mother, I am concerned about  
the state of our ecosystem and would like to see  
AEP increase their renewable energy & energy  
efficiency programs. AEP should be encouraging  
energy efficiency, not punishing customers who  
reduce their use.

Thank you for your time and consideration!

To Whom It May Concern:

This letter is in regards to case number 13-2385-ESP. I am opposed to AEP's plan to more than double the "customer charge" over the next 2 years. I don't like to see an increase in a flat charge that I have no control over with regards to my energy use or utilization of energy efficient appliances.

I would prefer to see AEP increase their renewable energy and energy efficiency programs instead. AEP should encourage energy efficiency and not punish customers who reduce their usage.

TO WHOM IT MAY CONCERN,

AS A CORPORATE ACCOUNTANT, I AM WELL AWARE OF THE CHALLENGES  
FACING BUSINESSES. HOWEVER, I MUST MAKE IT KNOWN THAT I AM  
OPPOSED TO RATE INCREASES TO SIMPLY PASS ALONG COSTS FOR  
CAPITALIZABLE COSTS.

IN THE PRESENT SITUATION OF CLIMATE CHANGE, I WOULD  
PREFER TO GET MY ENERGY FROM A CLEANER, AND MORE RENEWABLE  
SOURCE. THE PUBLIC IMAGE AND ALSO ONGOING OPERATING CONCERN  
OF AEP WOULD BE GREATLY IMPROVED IF AEP WERE TO  
INVEST IN THESE TYPES OF ENERGY.

I am a customer of American Electric Power. Please know that I am opposed to American Electric Power's attempts to raise rates. I would encourage the PUCO to decline any attempts by AEP to increase customer rates.

Further, I would request that the PUCO encourage AEP to increase efforts on their renewable energy and energy efficiency programs. Their continued reliance on coal is not in the best interests of the citizens of Ohio.

I appreciate your consideration of these requests.

This is to express a general opposition  
to the AEP's Plan to more than  
double the customer charge.

It would be more responsible for  
AEP and PUCO to promote the  
increase of renewable energy and  
processes that increase energy  
efficiency.

It would be a positive step to  
"healthy" innovation and progress  
away from "unhealthy" technology  
that abets everyone adversely
