**Subject:** Oppose the Central Corridor Pipeline Extension Project

Dear Ohio Power Siting Board,

As a resident of Sycamore Twp and concerned citizen, I am writing you to register my opposition to Central Corridor Pipeline Extension Project (Reference No. 16-253- GA-BTX).

Hello,

Please reconsider the route for the proposed high pressure gas line. My home is inside of the blast zone, my child's school and our church is inside of the blast zone. The Kenwood Town Center Mall and Jewish Hospital is inside of the blast zone. The traffic congestion though Kenwood is already overwhelming, but to add construction will make it unbearable. The majority of my families life resides inside of a blast zone. So essentially we either have to sell our home (which property values will decrease as a result of this) and move or live almost every minute of every day in fear that we might be involved in a gas line explosion. I am not alone in this fear and situation so please reconsider the route or need of this pipeline. Thank you.

This pipeline will travel through densely populated areas, including my neighborhood and will pose a danger to residences, schools, businesses and houses of worship.

Unlike delivery pipelines, this pipeline will be under up to 720psi pressure and an accident or rupture could cause injuries, death and destruction of property within a radius of 1/3 mile.

I ask you to oppose this pipeline and encourage both Duke Energy and the Ohio Power Siting Board to reject this pipeline

Thank you for your consideration.

Regards,  
Dwayne Pedrick Jr
