Subject: Oppose the Central Corridor Pipeline Extension Project

Dear PUCO Commissioner Thomas W. Johnson,

As a resident of Deer Park and concerned citizen, I am writing you to register my opposition to Central Corridor Pipeline Extension Project (Reference No. 16-253- GA-BTX).

I'm worried about my physical safety. This project ignores human safety just for the sake of monetary gains. My home value will decline. I work in the area and therefore will be at risk every second of my life. There are two hospitals within the area. Those would be decimated if the high pressure line explodes. We know they do. It's happened twice already. No risk of life is worth a monetary gain. That's all this is. There is no need to run a dangerous pipe through any residential area. It's flat out irresponsible.

This pipeline will travel through densely populated areas, including my neighborhood and will pose a danger to residences, schools, businesses and houses of worship.

Unlike delivery pipelines, this pipeline will be under up to 720psi pressure and an accident or rupture could cause injuries, death and destruction of property within a radius of 1/3 mile.

I ask you to oppose this pipeline and encourage both Duke Energy and the Ohio Power Siting Board to reject this pipeline

Thank you for your consideration.

Regards,
David Bahler

Dear PUCO Commissioner Thomas W. Johnson,

As a resident of Madeira and concerned citizen, I am writing you to register my opposition to Central Corridor Pipeline Extension Project (Reference No. 16-253- GA-BTX).

The construction mess, the danger of having a high pressure gas line in our back yard and the affect on real estate values on the area.

This pipeline will travel through densely populated areas, including my neighborhood and will pose a danger to residences, schools, businesses and houses of worship.

Unlike delivery pipelines, this pipeline will be under up to 720psi pressure and an accident or rupture could cause injuries, death and destruction of property within a radius of 1/3 mile.

I ask you to oppose this pipeline and encourage both Duke Energy and the Ohio Power Siting Board to reject this pipeline

Thank you for your consideration.

Regards,
JOHN Catlin

Subject: Oppose the Central Corridor Pipeline Extension Project

Dear PUCO Commissioner Thomas W. Johnson,

As a resident of Sycamore Twp and concerned citizen, I am writing you to register my opposition to Central Corridor Pipeline Extension Project (Reference No. 16-253- GA-BTX).

I'm writing to request that you oppose/prevent construction of the pipeline that is planned to run through several highly populated communities in Hamilton County. One of the proposed routes for the pipeline is less than 1,500 feet from my home in Sycamore Township. It seems unfathomably dangerous that the pipeline's route is so close to residences and places such as Jewish Hospital and the Kenwood Towne Centre. Please put safety first and oppose the construction of the proposed pipeline in this highly populated area.

Thank you.

Sincerely,

Laura E. Wickett

This pipeline will travel through densely populated areas, including my neighborhood and will pose a danger to residences, schools, businesses and houses of worship.

Unlike delivery pipelines, this pipeline will be under up to 720psi pressure and an accident or rupture could cause injuries, death and destruction of property within a radius of 1/3 mile.

I ask you to oppose this pipeline and encourage both Duke Energy and the Ohio Power Siting Board to reject this pipeline

Thank you for your consideration.

Regards,
Laura Wickett

Dear PUCO Commissioner Thomas W. Johnson,

As a resident of Golf Manor and concerned citizen, I am writing you to register my opposition to Central Corridor Pipeline Extension Project (Reference No. 16-253- GA-BTX).

The document is a pdf titled

"Why Have These Two Far Safer C314v Routes Not Been Presented To The Public?"

It contains a map of Duke's main line pipes and right-of-ways.

It also contains two Safer routes, One using all Duke owned Right of Way I wondered why Duke has not bothered to even mention to the public if they even looked at their eastern Hamilton county main-lines even if to show why they would be unacceptable.

Yes, my suggestions are longer, but with no land to fight for and and minimal need to rip up front yards could save a lot of money and legal bills. One of them could even be more economical.

Please look it over, It is my gift, free of copyright to be edited, printed and put in the public's hands.

This pipeline will travel through densely populated areas, including my neighborhood and will pose a danger to residences, schools, businesses and houses of worship.

Unlike delivery pipelines, this pipeline will be under up to 720psi pressure and an accident or rupture could cause injuries, death and destruction of property within a radius of 1/3 mile.

I ask you to oppose this pipeline and encourage both Duke Energy and the Ohio Power Siting Board to reject this pipeline

Thank you for your consideration.

Regards,
L. P. Luigi Espenlaub

COMMENT DESCRIPTION:

While I agree with the need for the 20 inch pipeline to be built in Cincinnati running from Mason to Fairfax, the latest change to detour around the Kenwood Country Club is needlessly putting more lives in danger in order to avoid tearing up a few holes on the golf course. I believe this outrageous and should not be done.
