Subject: Oppose the Central Corridor Pipeline Extension Project

Dear Ohio Power Siting Board,

As a resident of Deer Park and concerned citizen, I am writing you to register my opposition to Central Corridor Pipeline Extension Project (Reference No. 16-253- GA-BTX).

I'm worried about my physical safety. This project ignores human safety just for the sake of monetary gains. My home value will decline. I work in the area and therefore will be at risk every second of my life. There are two hospitals within the area. Those would be decimated if the high pressure line explodes. We know they do. It's happened twice already. No risk of life is worth a monetary gain. That's all this is. There is no need to run a dangerous pipe through any residential area. It's flat out irresponsible.

This pipeline will travel through densely populated areas, including my neighborhood and will pose a danger to residences, schools, businesses and houses of worship.

Unlike delivery pipelines, this pipeline will be under up to 720psi pressure and an accident or rupture could cause injuries, death and destruction of property within a radius of 1/3 mile.

I ask you to oppose this pipeline and encourage both Duke Energy and the Ohio Power Siting Board to reject this pipeline

Thank you for your consideration.

Regards,
David Bahler
