Subject: Oppose the Central Corridor Pipeline Extension Project

RECEIVED

PUC

Dear Ohio Power Siting Board,

As a resident of Madeira and concerned citizen, I am writing you to register my opposition to Central Corridor Pipeline Extension Project (Reference No. 16-253- GA-BTX).

I live 4 houses away from where the pipeline will cross Euclid Road. I am pregnant with twins. What happens to me or my family when the pipeline explodes? BOOM!!! We all blow up.

What happens with property values? Will I be reimbursed for the lost property value? When I go to sell, who will want to purchase a house with a huge liability several houses away???

What SPECIFICALLY is being done to GUARANTEE our safety from gas leaks and explosions?

Why can't the pipeline go thru a less-populated area? It seems that with all the twists and turns that is happening on the proposed routes, it would be just as cost effective to make a straight line somewhere outside the city - outside of 275.

Please do not let this pipeline go thru. Please stand with your neighbors to oppose this pipeline. Please tell Duke Energy to build it somewhere else!

Barb

This pipeline will travel through densely populated areas, including my neighborhood and will pose a danger to residences, schools, businesses and houses of worship.

Unlike delivery pipelines, this pipeline will be under up to 720psi pressure and an accident or rupture could cause injuries, death and destruction of property within a radius of 1/3 mile.

I ask you to oppose this pipeline and encourage both Duke Energy and the Ohio Power Siting Board to reject this pipeline

Thank you for your consideration.

Regards,
Barbara Hayden
