COMMENTS: I wish to file a formal complaint regarding the new proposed Duke Energy pipeline. The newest pipeline route will be 342 feet from my house in Madeira . The previous route took the pipeline across Kenwood Country Club along I-71. Now the route has changed to come up and route around the country club along the southern and eastern sides. I purchased this house 5 years ago along the southern edge of the country club. We have completely remodeled this house and pay substantial taxes to live in Madeira. It is totally unacceptable and ludicrous to me to have this gas line routed around the country club instead of following I-71 further away from our homes and families. Ultimately I am completely opposed to the pipeline running through any areas of Madeira. I am completely apposed to it running 342 feet from us thus affecting our safety and property values.
