Subject: Oppose the Central Corridor Pipeline Extension Project

Dear PUCO Commissioner Thomas W. Johnson,

As a resident of Other and concerned citizen, I am writing you to register my opposition to Central Corridor Pipeline Extension Project (Reference No. 16-253- GA-BTX).

I oppose the Central Corridor Pipeline Extension Project for three main reasons:

1. Cost - being a Duke Energy customer, I am not looking to fund this project. My costs are already as high as I'd like them to be.
2. Safety - I have no interest in living and working in an area that has the potential for an explosion.
3. Non-renewable energy source - I feel that not enough is being done to investigate and utilize our renewable energy sources.

Please take the time to ponder my thoughts.

Thank you.

This pipeline will travel through densely populated areas, including my neighborhood and will pose a danger to residences, schools, businesses and houses of worship.

Unlike delivery pipelines, this pipeline will be under up to 720psi pressure and an accident or rupture could cause injuries, death and destruction of property within a radius of 1/3 mile.

I ask you to oppose this pipeline and encourage both Duke Energy and the Ohio Power Siting Board to reject this pipeline

Thank you for your consideration.

Regards,  
Leesa Carr
