COMMENTS: I would like to voice my opposition to the proposed natural gas pipeline which will run through various Cincinnati neighborhoods. I have not heard a satisfactory justification for this new pipeline. I am also very concerned that some of the neighborhoods that it is proposed to run through are low socio economic areas who will be unaware of the impacts this pipeline will cause. I am also concerned about the environmental impact that this pipeline will cause when it inevitably leaks or breaks. Beyond the damage that this pipeline will cause to Cincinnatians who struggle with low socio economic status, I am also not interested in paying for these negative impacts. In summation I would like to voice my staunch opposition to the construction of this pipeline.
