Dear Public Utilities Commission (Case # 16-1852-EL-550),

165 ^{Liberty} Ridge (~~Side~~ Drive) Powell, OH 43065

I'm writing to voice my concerns about the latest attempt to raise Ohio Energy rates. AEP should be encouraging efficient energy versus continually increasing rates. Being a single income family we continue to struggle with the rising energy costs.

I struggle to understand what AEP is doing with their renewable energy and energy efficient programs. Why not educate the community on these programs along with ways to be more efficient with energy versus raising costs and profits.

Thank you from concerned consumer!

Case No.: 16-1852-EL-550

I am absolutely opposed to AEP's plan to more than double the customer charge in the very near future. I feel that it is imperative that AEP increases their renewable ^{energy} and energy efficiency programs. As a household that constantly looks for ways to reduce energy usage, this current line of thinking by AEP does not encourage that.

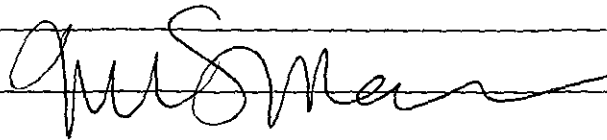

Sincerely,

Jeffrey J. Wallery

Dear PUC,

AEP should not double
our customer service
charge & should develop
renewable energy programs.
I do my part, now do yours!

PUCO:

I'M OPPOSED TO AEP'S PLAN TO MORE THAN
DOUBLE THE CUSTOMER CHARGE. ALTHOUGH
ENERGY IS KEY TO ANY ENVIRONMENT, THIS
INCREASE WILL BE TOO EXCESSIVE & WILL
CUSTOMERS TO TURN ELSEWHERE THUS AEP
LOSES \$.

PUCO: (Case # 16-1852-EL-SSO)

I would like to express my strong opposition to any increase in AEP's fixed charges. This would greatly lessen any incentive to conserve energy and/or use renewable energy which would hurt Ohio's competitiveness with other states and worsen our air & water quality - leading to worsening effects on Ohioans' health.

Thank you for your consideration.

Sincerely,

Michael Schaaf

To Whom It May Concern at the Public Utilities Commission:

It seems unfair to the customer that AEP's plan to double the "customer charge" be allowed. I have just updated my appliances and taken advantage of using some of the incentives to become more energy efficient. One bonus is having lower energy bills. Why should I make the investment to lower my bills and use lower energy if my cost is going up? Please do not allow AEP to punish customers who are reducing their use. I want to see more incentives for using energy efficient programs.

Thanks,

Laura Hanna

CASE # 16-1852-3L-SSO

To Whom it May Concern:

I Stephanie Hulsey I am strongly opposed to AEP's plan to more than double the customer charge. I 100% agree AEP should be encouraging energy efficiency, not punishing customers who reduce their use. We need to think about people and not how much money you can gain. Look at the reality of the people, poverty is beyond real and increasing AEP Bill is beyond just greedy.

Dear P.U.C.O.,

As the father of a young child, 16-1852-EL-550 (AEP's plan to increase customer charges and punish customers who reduce their energy use) is very worrisome to me. The choice of increasing their renewable energy and energy efficiency programs seems a far superior alternative. My son needs to grow up in a world that will move away from traditional forms of energy use and increase their use of renewable energy sources.

Sincerely,

Mark Sholl

Case# 16-1852-EL-SSC

Dear Public Utilities Commission,

I'm opposed to AEP's Plan to more than double the customer charge on bills. I believe coal isn't the future for our state and I'd like to see AEP increase their renewable energy and energy efficiency programs. AEP should be on the clean side of energy, encouraging energy efficiency, not punishing customers who reduce their use. This pertains to case 13-2385-ESP. Thank you for your time in reading this letter.

From,
Kaitlyn
