THE PUBLIC UTILITIES COMMISSION OF OHIO**

In the Matter of the Interstate Gas	)	
Supply, Inc. 2015 Renewable	)	Case No. 16-0758-EL-ACP
Portfolio Standard Status Report	)	

---

**Staff Findings and Recommendations**

---

**I. Statutory Background**

Amended Substitute Senate Bill 221, of the 127<sup>th</sup> General Assembly (2008 Ohio Laws S221, effective July 31, 2008), established Ohio's renewable portfolio standard (RPS) applicable to electric distribution utilities and electric service companies. The RPS is addressed principally in Ohio Revised Code (R.C.) 4928.64, with relevant resource definitions also contained within R.C. 4928.01(A).

According to R.C. 4928.64(B)(2), the compliance obligations for **2015** are as follows:

- Renewable Energy Resources = **2.50%** (includes solar requirement)
- Solar Energy Resources = **0.12%**

The Public Utilities Commission of Ohio (PUCO or Commission) further developed rules to implement the Ohio RPS, contained within Ohio Administrative Code (Ohio Adm.Code) 4901:1-40.

Ohio Adm.Code 4901:1-40-05(A), states:

Unless otherwise ordered by the commission, each electric utility and electric services company shall file by April fifteenth of each year, on such forms as may be published by the commission, an annual alternative energy portfolio status report analyzing all activities undertaken in the previous calendar year to demonstrate how the applicable alternative energy portfolio benchmarks and planning requirements have or will be met. Staff shall conduct annual compliance reviews with regard to the benchmarks under the alternative energy portfolio standard.

Ohio Adm.Code 4901:1-40-05(C), states:

Staff shall review each electric utility's or electric services company's alternative energy portfolio status report and any timely filed comments, and file its findings and recommendations and any proposed modifications thereto.

The findings and recommendations in this document pertain to the company's compliance status. This document does not address such matters as cost recovery or status relative to the statutory 3% cost provision.

## **II. Company Filing Summarized**

Interstate Gas Supply, Inc. (IGS or Company) filed its RPS compliance status report for the 2015 compliance year on April 15, 2016. In its compliance filing, IGS proposed a redacted baseline that it asserted was an average of its actual sales for 2012, 2013, and 2014.<sup>1</sup> Applying the statutory benchmarks to its proposed baseline, IGS calculated its 2015 compliance obligations, the details of which were redacted from the Company's public report.

The Company indicated that it had obtained the necessary renewable energy credits (RECs) and solar RECs (S-RECs) to satisfy its 2015 compliance obligations. The Company further indicated that it had transferred the necessary RECs and S-RECs to its PJM EIS Generation Attributes Tracking System (GATS) reserve subaccount for Ohio compliance purposes.

## **III. Filed Comments**

No persons filed comments in this proceeding.

## **IV. Staff Findings**

Following its review of the annual status report and any timely comments submitted in this proceeding, Staff makes the following findings:

- (1) IGS was an electric services company in Ohio with retail electric sales in the state of Ohio during 2015, and therefore the Company had an RPS obligation for 2015.<sup>2</sup>

---

<sup>1</sup> In its CRES Annual Reports, filed publicly with the Commission, the Company reported its 2012-2014 sales as 361,617 MWHs, 1,324,326 MWHs, and 2,507,961 MWHs respectively. See, e.g., <http://www.puco.ohio.gov/emplibrary/files/docketing/AnnualReports/2014/Certified%20Gas%20&%20Electric%20Suppliers%20and%20Aggregators/Interstate%20Gas%20Supply%20Inc%2011-403E%202014.pdf>

<sup>2</sup> IGS was certified to provide retail generation, power marketer, and power broker services in Ohio during 2015; see PUCO Case No. 11-5326-EL-CRS.

- (2) The baseline proposed by IGS is reasonable, and given the proposed baseline and the 2015 statutory benchmarks, IGS accurately calculated its RPS compliance obligations.
- (3) The Company has transferred RECs and S-RECs to its GATS reserve subaccount adequate to address its 2015 Ohio compliance purposes.
- (4) Following a review of the Company's reserve subaccount data on GATS, Staff confirmed that the Company satisfied its non-solar<sup>3</sup> obligation for 2015. The RECs that the Company transferred to its GATS reserve subaccount were sourced from generating facilities certified by the Commission and were appropriately associated with electricity generated between August 1, 2008, and December 31, 2015.
- (5) Following a review of the Company's reserve subaccount data on GATS, Staff confirmed that the Company satisfied its solar obligation for 2015. The S-RECs that the Company transferred to its GATS reserve subaccount were sourced from solar generating facilities certified by the Commission and were appropriately associated with electricity generated between August 1, 2008, and December 31, 2015.
- (6) The Company redacted several pieces of information from the public version of its report, including its proposed compliance baseline and its 2015 compliance obligations.

## **V. Staff Recommendations**

Following its review of the information submitted in this proceeding and other relevant data, Staff recommends the following:

- (1) IGS is found to have satisfied its 2015 RPS compliance obligations.
- (2) The Company should review the Commission's decision in Case No. 12-1233-EL-ACP for direction on what may reasonably be redacted from the RPS compliance status reports.
- (3) For future compliance years in which the Company is utilizing GATS to demonstrate its Ohio compliance efforts, the Company initiates the transfer of

---

<sup>3</sup> Staff uses "non-solar" in this context to refer to the total renewable requirement net of the specific solar carve-out. Staff acknowledges that there is not a specific "non-solar" requirement in the applicable statute.

the appropriate RECs and S-RECs to its GATS reserve subaccount between March 1<sup>st</sup> and April 15<sup>th</sup> so as to precede the filing of their Ohio annual compliance status report with the Commission.
