Notice of Public Informational Meeting for Proposed Major Utility Facility

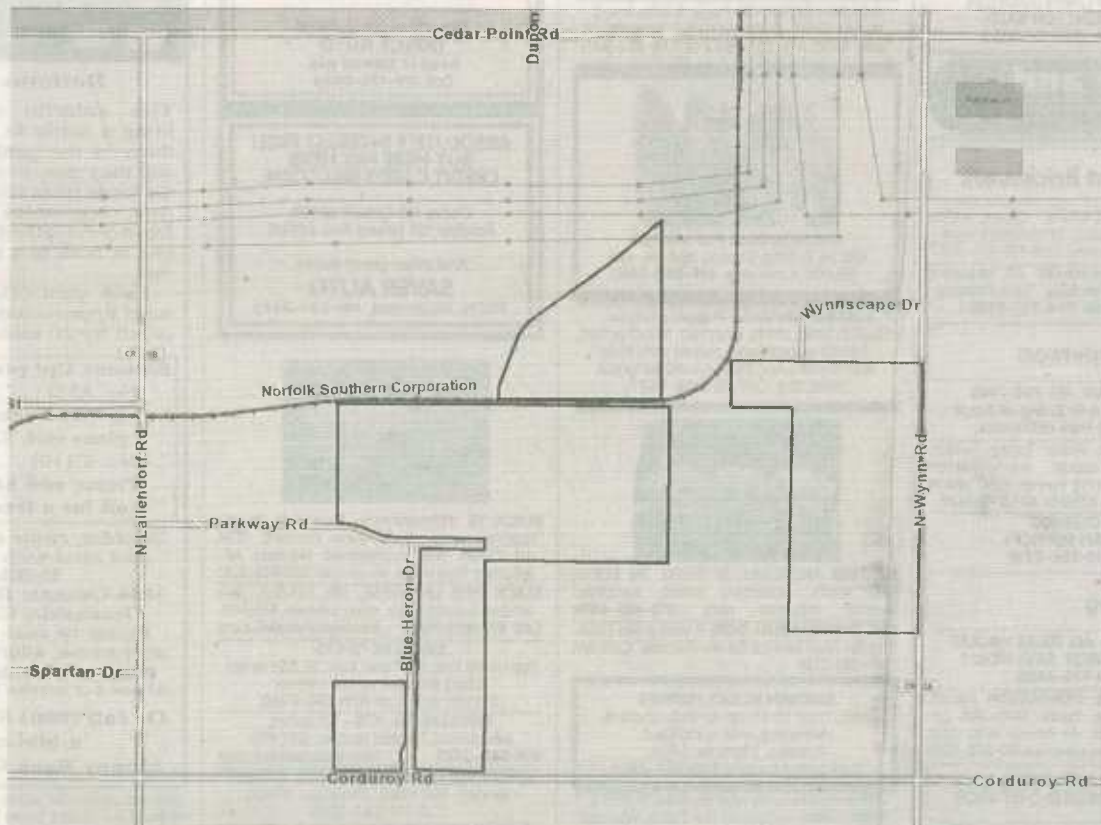

Clean Energy Future-Oregon, LLC Schedules March 30, 2017 for a Public Meeting to Outline Plans for a 955 Megawatt Gas Fired Generation Plant To Be Built in the City of Oregon, Ohio.

Clean Energy Future-Oregon, LLC invites residents of Oregon, Ohio and other interested members of the public, to attend a public informational meeting regarding the company's plans to build a 955 megawatt gas fired, combined cycle power station.

The electric generating facility will be located in an industrial area zoned in the City of Oregon, located off of Corduroy Road, Lucas County, Ohio.

The project will consist of two gas-fired, high-efficiency combustion gas turbines with two heat recovery steam generators and a single steam turbine. It will have a wet cooling tower and state-of-the-art pollution controls. The plant will be served by natural gas from one or multiple nearby pipelines. The generating station will be interconnected to adjacent 138- and 345-kilovolt transmission lines. Construction of the project is projected to begin in early 2018, with projected commercial operation to begin in mid-2020.

The public informational meeting will take place from **5:00 p.m. to 7:00 p.m., on March 30, 2017** at the City Council Meeting Room, 5330 Seaman Road, Oregon Ohio, 43616. The meeting format will be an open house with stations containing information about the project presented on informational boards located throughout the room. Maps of the project area will be available to review. Company representatives will be available at each station to answer questions. Those who attend the meeting may submit written comments that the applicant will summarize, address and include in its application.
