Subject: Oppose the Central Corridor Pipeline Extension Project

Dear Ohio Power Siting Board,

As a resident of Blue Ash and concerned citizen, I am writing you to register my opposition to Central Corridor Pipeline Extension Project (Reference No. 16-253- GA-BTX).

As a Blue Ash resident, I strongly oppose the preferred pipeline route. This route is ill conceived and endangers thousands of persons who would not be effected by the alternative route. I will support all opposition to this route as it is extremely hazardous.

This pipeline will travel through densely populated areas, including my neighborhood and will pose a danger to residences, schools, businesses and houses of worship.

Unlike delivery pipelines, this pipeline will be under up to 720psi pressure and an accident or rupture could cause injuries, death and destruction of property within a radius of 1/3 mile.

I ask you to oppose this pipeline and encourage both Duke Energy and the Ohio Power Siting Board to reject this pipeline

Thank you for your consideration.

Regards,  
Carole Barker

COMPLAINT DESCRIPTION:

As a Blue Ash resident, I opposed the primary pipeline route. This route needlessly endangers thousands of residents. Use of the alternate route would alleviate the pipeline running near these homes and businesses. Use the safer alternative route. I strongly oppose the use of the extremely dangerous primary route.
