Subject: Case #16-0253-GA-BTX

Ohio Power Siting Board Members - As a widow, a single mother and the only grandparent in the lives of my two little grandgirls, I live in the "Burn Zone" of the gas supply line proposed in case #16-0253-GA-BTX. In addition, I own two Blue Ash rental properties just outside the burn zone, as well, and the rent I receive is 88% of my income. The proposed gas line will adversely affect my property values as well as my ability to sustain my current rates. I have no other income or properties and have four mortgages to pay.

In reaching a decision as to whether or not to approve Duke's plan to install the Case #16-0253-GA-BTX gas supply line in such a densely populated area, please consider the impact an explosion would have on someone like me, for example. Better yet, consider the impact of having voted "Yes" would have on you and your family in such an instance and vote "No."

Thank you for your kind consideration in this matter.

Sincerely,

Jacqueline H Diaz
