Re: Copies of the application served upon public officials and public agencies
In the Matter of the Application for Certificate of Environmental Compatibility and Public
Need - Ohio Central Corridor Extension, Case No. 16-253-GA-BTX

Dear Chairman Haque:

As outlined in your letter dated March 3, 2017, regarding the Central Corridor Pipeline Project, Duke Energy Ohio, Inc., (Duke Energy Ohio or Company) hereby provides the information required in accordance with Ohio Administrative Code (O.A.C.) Rules 4906-3-06, 4906-3-07 and 4906-3-08, specifically submitting the following:

1. In accordance with O.A.C. Rule 4906-3-07(A)(2), Duke Energy Ohio has served copies of the certified application upon the appropriate local officials. A copy of the transmittal letter that accompanied each application and the list of local public officials are enclosed.
2. In accordance with O.A.C. Rule 4906-3-07(A)(4), Duke Energy Ohio states that service was performed by sending the certified application with an individual cover letter via UPS Ground delivery on March 23, 2017, to all appropriate local officials, with the exception of two recipients. These recipients were served copies via certified mail from the United States Postal Service as the only available address was a post office box address. On March 24, 2017, an additional letter was sent to the same local officials adding information about deadline for filing for intervention in the case. A copy of the proof of service of both letters to each local official is attached.

The Company respectfully requests that the Ohio Power Siting Board confirm its acceptance of these submittals in satisfaction of the filing requirements for this application, and notify Duke Energy Ohio of the effective date of the filing and the date and location of the public hearing.

Respectfully submitted,

Jeanne W. Kingery
Associate General Counsel

Re: Duke Energy Ohio Central Corridor Natural Gas Pipeline Project
Ohio Power Siting Board Case No. 16-253-GA-BTX

Dear Ms. Fender,

Duke Energy Ohio, Inc. is proposing to construct a new, natural gas pipeline in Hamilton County, known as the Central Corridor Natural Gas Pipeline Project. This is an important project that is intended to allow the Company to retire two aged propane air peaking plants, improve the balance of natural gas supply by bringing in more natural gas from the northern side of the system, and support replacement of aging infrastructure with modern materials. Although Hamilton County is home to a large population, less than four percent of the preferred route would be constructed on residential property.

The company filed its application with the Ohio Power Siting Board on September 13, 2016. On March 3, 2017, the Board certified the application as complete, such that its investigation could begin.

We are providing you with an electronic copy of the accepted, complete application. We will gladly provide a paper copy, upon request.

Re: Duke Energy Ohio Central Corridor Natural Gas Pipeline Project
Ohio Power Siting Board Case No. 16-253-GA-BTX

Dear Mayor Harman,

Duke Energy Ohio, Inc. is proposing to construct a new, natural gas pipeline in Hamilton County, known as the Central Corridor Natural Gas Pipeline Project. This is an important project that is intended to allow the Company to retire two aged propane air peaking plants, improve the balance of natural gas supply by bringing in more natural gas from the northern side of the system, and support replacement of aging infrastructure with modern materials. Although Hamilton County is home to a large population, less than four percent of the preferred route would be constructed on residential property.

The company filed its application with the Ohio Power Siting Board on September 13, 2016. On March 3, 2017, the Board certified the application as complete, such that its investigation could begin.

We are providing you with an electronic copy of the accepted, complete application. We will gladly provide a paper copy, upon request.
